OUTLINE OF THE MICHIGAN TAX SYSTEM

2016 Update

Once again, tax policy discussions during 2015 were dominated by the Legislature's efforts to come to an agreement on a long-term plan to increase revenues for Michigan's increasingly deteriorating road system. Late in the 2013-14 legislative session, the Legislature approved a plan that traded an increase in motor fuel taxes for the elimination of the sales tax on motor fuel. However, the plan also included a 1 percent increase in the sales and use tax rates designed to avoid a revenue hit to K-12 schools and local governments that receive dedicated revenues from the sales tax. Since the sales tax rate is set in the Michigan Constitution, raising the rate required a vote of the people. In May 2015, the people spoke by resoundingly rejecting the sales tax hike contained in Proposal 15-1. As a result, the entire road funding package fell by the wayside, and the Legislature found itself back at the drawing board in search of a road funding solution.

At long last, they found success. In November, six months after the defeat of the ballot proposal, the Senate and House approved a package of seven bills that represented the first major road funding increase since 1997. Governor Snyder signed the package. The plan will eventually generate close to \$1.2 billion per year in new road revenues: half from increased transportation taxes and half from the redirection of existing income tax revenue that currently goes to the state's general fund. However, the bulk of that new revenue won't come to fruition for several years, so Michigan drivers may need to be patient as they wait to see significant improvements in road conditions.

Transportation Taxes: Motor Fuel and Registration Tax Increases

With regard to transportation taxes, the road plan will raise both the 19-cents per gallon gasoline tax and 15-cents per gallon diesel fuel tax to 26.3-cents per gallon beginning January 1, 2017. It also applies this increased tax rate to various alternative fuels. Beginning in 2022, the motor fuel tax rates will begin to adjust automatically based on consumer inflation. Finally, the plan raises annual registration taxes on passenger vehicles and large commercial trucks by 20 percent and creates a new registration surcharge for electric-powered vehicles. This component of

the package is expected to generate \$460 million in new transportation revenues in FY2017 and around \$620 million per year thereafter.

That's well short of the \$1.2 billion in new annual revenue that road officials indicate is minimally needed to bring Michigan's roads back to an acceptable state and that has been the de facto goal of the Legislature's efforts over the last several years. To get the remainder of this revenue, the Legislature looked to the state's existing revenue stream.

Income Tax Changes: Road Allocation and Rate Reduction Trigger

To supplement the revenues from the motor fuel and registration tax increases, the road plan redirects existing revenue from the state income tax for road purposes. State and local road agencies will receive \$150 million from the income tax in FY2019, \$325 million in FY2020, and \$600 million in each subsequent fiscal year to help address road repair needs. While that new revenue will help the roads, it means less revenue available for other state priorities that receive general fund support.

However, that was only the first of three major changes to the income tax that was part of the enacted road plan. In order to offset some of the tax burden imposed by the transportation taxes, the Legislature included enhancements to the state's Homestead Property Tax Credit against the income tax. The credit reduces the income tax liability of low- and moderate-income home owners and renters. The legislation increases the maximum credit amount, revises criteria to enhance the credit for most eligible households, and increases the amount of income a household can earn while remaining eligible for a credit. Like the road allocation, the changes to the homestead credit's parameters are expected to reduce revenue to the state's general fund by around \$200 million per year.

Lastly and perhaps most significantly, the Legislature added language to the Income Tax Act that could trigger an automatic reduction in the income tax rate in future years. Beginning in tax year 2023, whenever cumulative growth in state general fund/general purpose revenues exceed an inflation rate calculation included in the act, the income tax rate

will be reduced in order to eliminate the general fund revenue growth in excess of inflation. The annual calculations of general fund growth and inflation that determine whether the trigger is effective for that year will use FY2021 as a base year.

Other Tax Policy Changes

While much of the focus during 2015 was on achieving a compromise on the transportation funding package, a number of other significant tax policy changes were approved. These changes include:

- New income tax exemptions of up to up to \$5,000 for a single return and \$10,000 for a joint return for contributions, interest earnings, and qualified withdrawals from a "Achieving a Better Life Experience" savings account designed to assist disabled individuals.
- New sales and use tax exemptions for data center equipment sold to or used by a qualified data center or co-located business.
- Earmarking a portion of sales and use tax revenue generated from the sale or use of aviation fuel for aeronautics programming.

Conclusions

The Legislature and Governor finally achieved a policy priority that had eluded them for several years by enacting a long-run road funding plan in November 2015.

However, as noted, that plan calls for only \$460 million in new transportation revenue for FY2017 and just over \$600 million in FY2018. That falls well below the \$1.2 billion in new annual road revenue that has been the goal of road funding debates ever since Governor Snyder first proposed a significant increase in transportation taxes in his FY2014 budget proposal way back in February 2013. Only when the significant redirection of income tax revenue begins in FY2019 will new revenues begin to approach this goal. Even then, new revenue available for road repairs will fall slightly short of \$1.2 billion in FY2021 when the income tax redirection is fully phased in. That means that significant improvements in Michigan's road conditions will likely not be realized for many years.

Furthermore, the new road plan's reliance on redirected general fund revenues for roads as well as the enhanced homestead property tax credit and rate reduction trigger all have the potential to create new challenges for budget writers in future fiscal years. The foregone general fund revenue tied to the plan has important implications for state programs that rely on general fund support, including high-dollar state programs such as Medicaid, higher education, and corrections.

Many of the legislators involved in putting together last November's road funding plan will be gone due to term limits by the time these challenges come to a head in FY2021 and beyond. How a future Legislature decides to address these challenges remains to be seen.

OUTLINE OF THE MICHIGAN TAX SYSTEM

The Michigan system of state and local taxes contains 60 elements, including 38 identifiable taxes imposed by the state for its own use and 22 taxes imposed by or for local governments. In this report, state and local taxes are classified according to the basis of taxation: *Income Taxes* — directly on or measured by the income of individuals; *Business Privilege Taxes* — on the privilege of doing business in Michigan; *Sales-Related Taxes* — on general retail sales and on transactions involving specific goods (selective sales taxes); *Property Taxes* — on property or in lieu of property taxes; and *Transportation Taxes* — on the direct users of transportation facilities.

OUTLINE OF THE MICHIGAN TAX SYSTEM

Introduction

This outline is designed to be a ready reference to the 60 taxes levied by state and local government in Michigan. It contains information on each of the 38 state and 22 local taxes effective as of the publication date, including:

- A description of each of the 60 state and local taxes and historical collections from major taxes (pages 1 to 76).
- A summary of major tax law enacted by the state legislature between January 1, 2015 and December 31, 2015 (pages 79 to 80).
- A table of tax collections for fiscal years 2012-2015 (page 83).

Taxes Defined

A tax is an enforced financial charge exacted by a government for the support of its various functions. State and local governments in Michigan levy several types of taxes. This report categorizes Michigan taxes as follows:

- **Income taxes** are levied based on income earnings. The state and local personal income taxes are based on federal adjusted gross income. Non-resident local income taxes are based on earnings from within the taxing cities. In 2011, the state enacted a 6 percent Corporate Income Tax levied only on C corporations. Only the state and city governments are authorized to levy income taxes in Michigan.
- **Business privilege taxes** are levied on firms that do business in Michigan or, in some cases, engage in a specific line of business. With the Single Business Tax, in effect from 1975 to 2007, and the Michigan Business Tax, in effect from 2007 to 2011, Michigan businesses were subject to a value-added tax with the SBT and to a hybrid of two individual taxes; a business income tax and a modified gross receipts tax. The Michigan Business Tax was eliminated effective January 1, 2012 for most business firms, and replaced with the Corporate Income Tax. State government is authorized to levy eleven types of business privilege taxes in Michigan. Counties in Michigan are authorized to levy one type of business privilege tax (9-1-1 charge) and the only municipal government authorized to levy this type of tax is the City of Detroit, which can levy a casino gaming tax on the three Detroit casinos (a complement to the state-level tax levied on the casinos).
- **Sales-related taxes** are levied in several forms in Michigan. The Sales and Use taxes are levied on the retail sale or use of tangible personal property. Until recently, only the state government was authorized to levy sales and use taxes in Michigan. At the August 2014 election, voters authorized a statewide special authority to levy a "local" use tax. (See boxes on pages 25 and 29). Excise or selective sales taxes are levied, like sales and use taxes, on the purchase of individual products and services. In addition to the excise taxes included under the sales-related taxes, motor fuel taxes are listed separately under transportation taxes because they are, in large measure, user charges. State government is authorized to levy nine types of sales-related taxes in Michigan. Counties are authorized to levy three types of sales-related taxes, and the City of Detroit is also authorized to levy a sales-related tax.
- **Property taxes** are levied based on the value of property. In addition to the taxation of real and personal property that typically falls under the local General Property Tax, local governments are authorized to levy three other ad valorem taxes (unit-wide special assessments, Low Grade Iron Ore Tax, and the County Real Estate Transfer Tax) and the state government is authorized to levy five ad valorem taxes (State Education Tax, Utility Property Tax, State Real Estate Transfer Tax, State Essential Services Assessment Tax, and Motor Vehicle Registration Tax). Motor vehicle registration taxes are not typically associated with property taxes; however, because Michigan taxes personal passenger vehicles based on their value, the Motor Vehicle Registration Tax qualifies as a property tax. Michigan local governments are authorized to levy eleven different types of specific taxes in lieu of ad valorem property taxes, several of which were created as economic development tools to reduce the tax burden on individual taxpayers.
- **Transportation taxes** are sales-related and property taxes levied on items used for transportation purposes. Each of these taxes is earmarked specifically to transportation purposes

(i.e., operating and capital expenditures). For ease of use, they are grouped as transportation taxes in this outline as opposed to another type of tax.

When is a charge considered a tax?

This question is significant in Michigan with the limitations placed on taxation in the state Constitution. Specifically, amendments to the state Constitution adopted in 1978 (commonly referred to as the "Headlee Amendment") directly affect the level of state taxes and means of collecting local taxes. As part of a national taxpayer revolt, the Headlee Amendment was adopted by the voters of Michigan to limit legislative expansion of requirements placed on local government, to control increases in government spending, and to limit taxes both at the local and state level.

State vs. Local Taxes. One ramification of the Headlee Amendment is the differentiation of state and local taxes. Section 26, Article IX, of the 1963 Constitution placed a limit on the growth of total state revenues.

There is hereby established a limit on the total amount of taxes which may be imposed by the legislature in any fiscal year on the taxpayers of this state. . . . The legislature shall not impose taxes of any kind which, together with all other revenues of the state, federal aid excluded, exceed the revenue limit established in this section. . .

For the purposes of this document, in addition to the categorization by tax type, CRC has divided taxes according to which level of government actually levies the tax, recognizing that all taxing authority ultimately comes from the state. If the levy of a tax requires local action, it is considered a local tax. All other taxes are considered state taxes. State taxes are most directly affected by this limitation. Specifically, the question of which taxes are state-levied is significant in calculating the constitutionally-established ratio noted above. While local taxes are not affected by this limitation directly, the drafters of the Headlee Amendment considered the possibility that one means of evading this restriction would be to pass functions to local government. Section 25 of Article IX provided for such a possibility by providing that,

. . . The state is prohibited from requiring any new or expanded activities by local governments without full state financing, from reducing the proportion of state spending in the form of aid to local governments, or from shifting the tax burden to local government. . .

Some taxes are very clearly state taxes. These taxes are levied on a statewide basis, uniform across all taxpayers, and the revenues from these taxes are deposited into state funds to finance state government activities. For other taxes the distinction is not so clear. Some taxes are state taxes levied for local purposes. The Airport Parking Excise Tax for instance, is levied only on the parking facilities in and around the Detroit Metropolitan Wayne County Airport. The majority of the revenues are used to support primarily local functions, such as general assistance to the City of Romulus and indigent health care in Wayne County. Even though the majority of the revenues are used for seemingly local purposes, this tax is considered a state tax.

Other taxes are state taxes collected by local government. Cities and townships are responsible for collecting property taxes for all units that geographically overlap their boundaries, including counties, local school districts, intermediate school districts, and special authorities. With enactment of the State Education Tax as part of Proposal A of 1994, cities and townships became responsible for collection of that tax as well. Although taxpayers pay this tax to local units of government, it is levied uniformly across the state, revenues are transferred to a state account, and it is dedicated to the state School Aid Fund, making it a state tax.

Taxes vs. Fees. Because of the number and variety of local units of government, it is not practical to place an overall limit on the total revenue of local government in a state. Instead, the Headlee Amendment attempted to limit local tax revenues in two different ways. First, it attempted to control the property tax burden, the primary means of funding local government in Michigan, by limiting net growth in the tax yield on a unit-wide basis. Second, and more significantly, it required voter approval for the levy of new local taxes or increasing the rate of existing local taxes. Section 31 of Article IX provides Units of Local Government are hereby prohibited

from levying any tax not authorized by law or charter when this section is ratified or from increasing the rate of an existing tax above that rate authorized by law or charter when this section is ratified, without the approval of a majority of the qualified electors of that unit of Local Government voting thereon. . .

This provision has come under some scrutiny over the question of taxes versus fees. In a 1998 state Supreme Court decision, *Bolt v City of Lansing*, the court laid out three criteria to distinguish a fee from a tax:

1. User fees must serve a regulatory purpose rather than a revenue-raising purpose;
2. User fees must be proportionate to the necessary costs of the service or commodity, and imposed on those benefiting from the right/service/improvement supported by the fee; and
3. User fees are voluntary in nature.

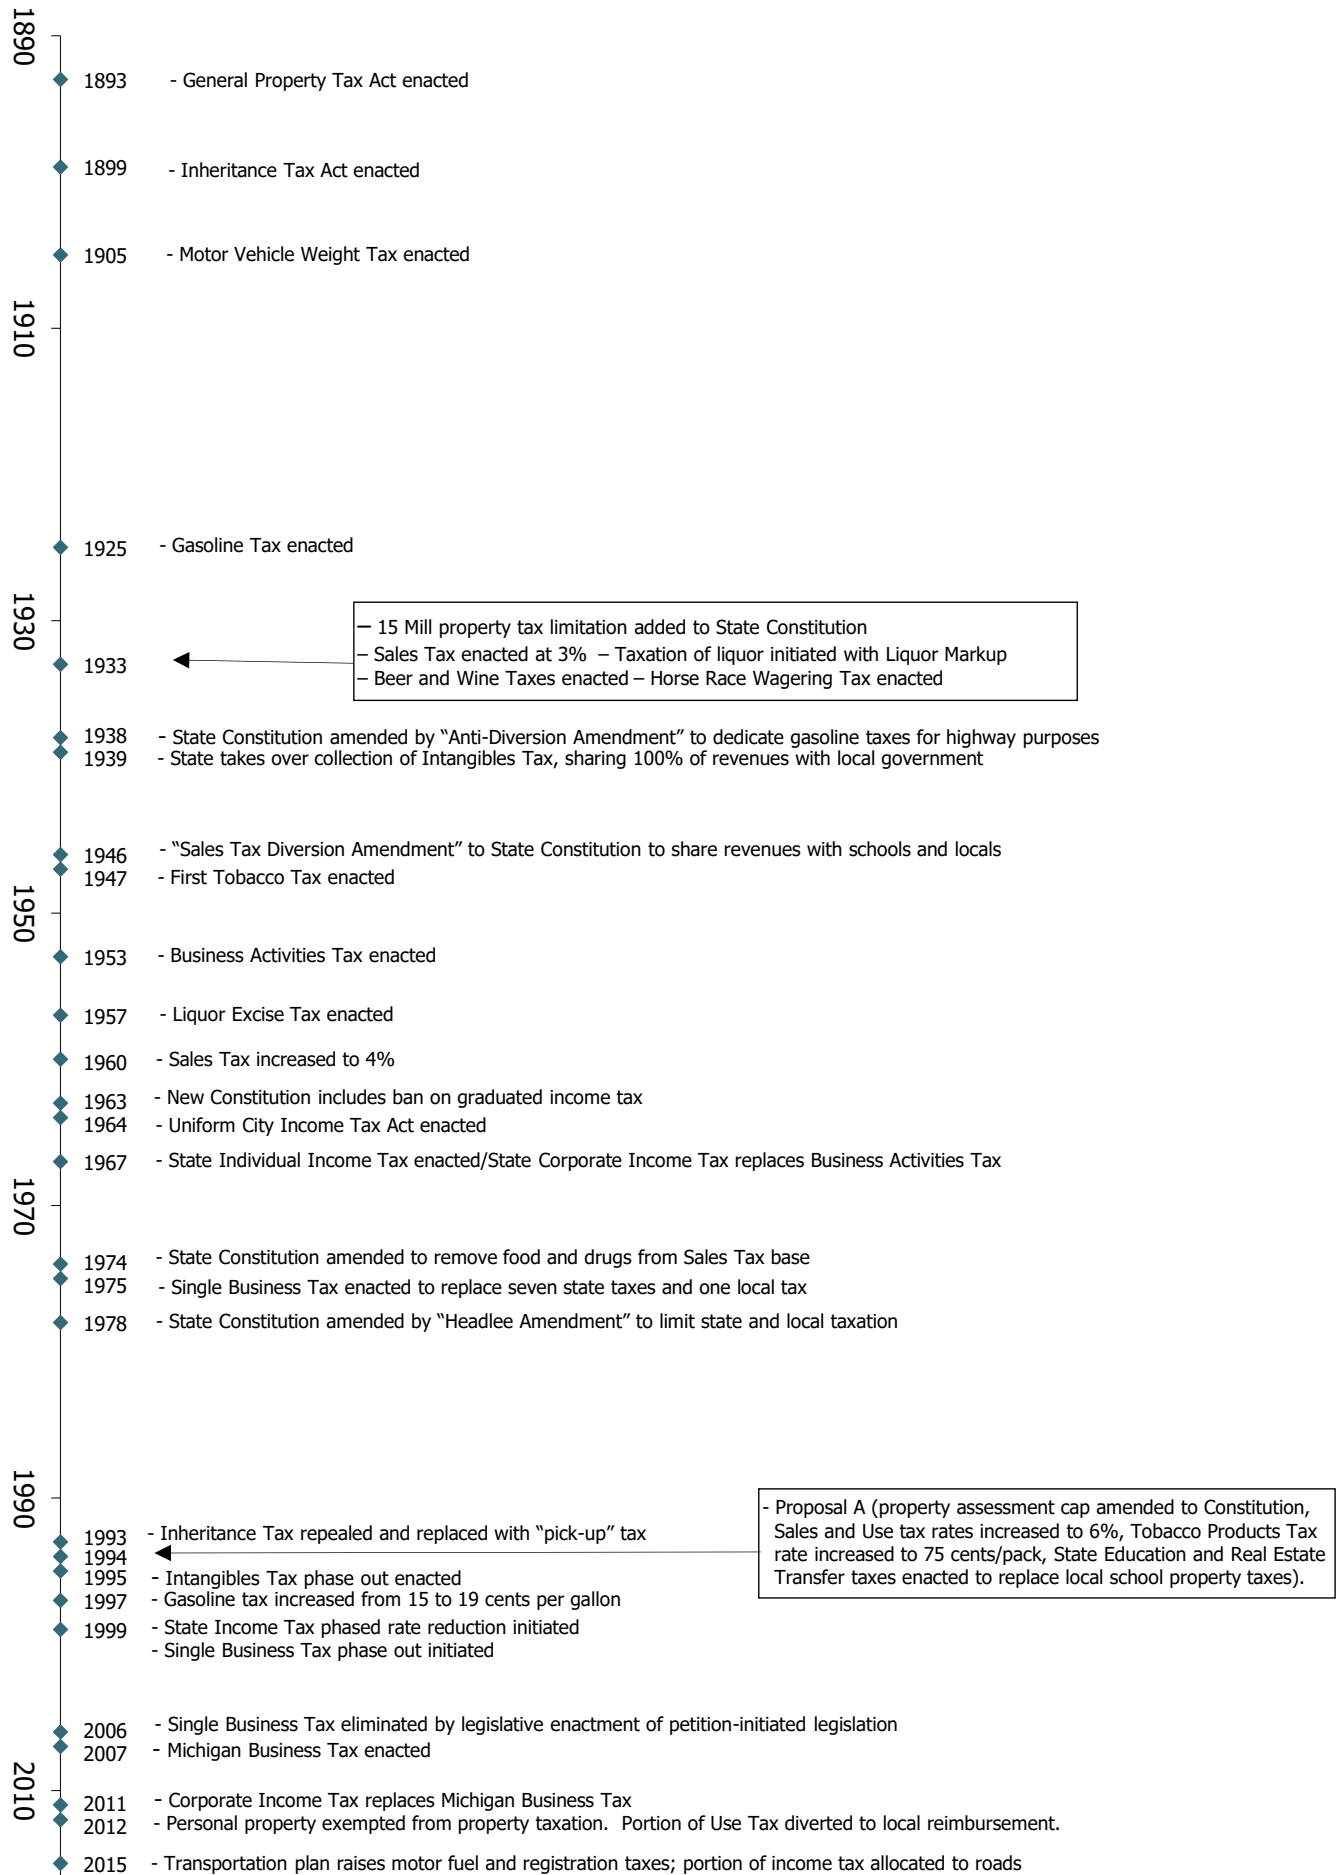

Contrasted with fees are taxes levied by government. By implication, a tax:

1. Is to be levied to raise revenue for the general operation of government;
2. Is to be levied to benefit the general public; and
3. Is compulsory in nature.

A fee may be thought of as a charge that permits an individual or other entity access to a government service or to a privilege granted by government, whereas a tax simply underwrites the provision of governmental services available to anyone, whether the tax has been paid or not. For example, a toll on a bridge or highway permits a specific individual access to the bridge or highway and is, therefore, a fee. On the other hand, a gasoline tax, which also pays for bridges and highways, confers no special privilege and is, therefore, a tax.

PERSONAL INCOME TAX

LEGAL CITATION:	M.C.L. 206.1 et seq. ; 1967 PA 281; Section 7, Article IX, state Constitution .
YEAR ADOPTED:	1967
BASIS OF TAX:	A direct tax on income.
MEASURE OF TAX (BASE):	Federal adjusted gross income of individuals, estates and trusts, with certain adjustments.

Additions include all or part of (1) interest income from state/local obligations other than Michigan state and local income tax paid, and certain other exclusions from federal adjusted gross income, and (2) refunds received under the [Michigan Education Trust Act](#) for a terminated advance tuition payment contract.

Subtractions include personal and dependency exemptions. The exemption was \$4,000 in 2015 with future exemptions indexed to inflation from the 2012 base exemption of \$3,700 (i.e., the indexing will become effective once the inflation-adjusted exemption exceeds the current \$4,000 level), and special exemptions for totally or permanently disabled, and disabled veterans. Also excluded are all or part of:

- (1) interest income from federal government obligations;
- (2) armed forces compensation;
- (3) railroad pension;
- (4) National Guard pension or retirement benefits;
- (5) Social Security;
- (6) retirement benefits (public and private), based on the taxpayer's birth year:

Taxpayer Born Before 1946*

Public pensions are exempt.

Private pensions, subtract up to \$49,811 for single and \$99,623 for joint return (based on 2015 indexed to inflation); maximum deduction reduced by any public benefits exempted.

Subtract up to \$11,104 for single and \$22,207 for joint return (based on 2015 indexed to inflation) of interest, dividends, or capital gains earned by a senior citizen: maximum deduction is reduced by pension deduction claimed.

Taxpayer Born 1946 to 1952*

Before taxpayer reaches 67:

For public and private pensions, subtract up to \$20,000 for single and \$40,000 for joint return.

After taxpayer reaches 67:

Can take standard deduction from all income up to \$20,000 for single and \$40,000 for joint return.** No specific pension or retirement benefit deduction. Standard deduction is reduced by any military or railroad retirement benefits.

Taxpayer Born After 1952*

After taxpayer reaches 67:

Taxpayer can choose:

A) Take a standard deduction from all income up to \$20,000 for single and \$40,000 for joint return.** However, Social Security, military pension, and railroad pension income are subject to tax. Also, taxpayer can not claim personal exemption.

B) Social Security, military pension, and railroad pension are exempt from tax; taxpayer may also claim personal exemption.

* For married couples filing jointly, the age of the oldest spouse determines the age bracket into which the couple falls.
** Limits are increased to \$35,000 single/\$55,000 joint for persons receiving benefits from governmental agency not covered by Social Security.

- (7) advance tuition payments made under the [Michigan Education Trust Act](#);
- (8) for taxpayer born before 1946, up to \$11,104 (\$22,207 for a joint return) of interest, dividends, or capital gains earned in 2015; maximum deduction is indexed for inflation and is reduced by pension deduction claimed (see table);
- (9) claims for recovered assets received by Holocaust victims;
- (10) educational savings account or "Achieving a Better Life Experience" (ABLE) savings account contributions up to \$5,000 per education savings account (\$10,000 for a joint return) and interest earned on those contributions; and

OUTLINE OF THE MICHIGAN TAX SYSTEM

PERSONAL INCOME (CONTINUED)

- (11) gain from an initial equity investment made before 2010 of at least \$100,000, if the investment plus the gain, or a portion of it, is reinvested in an equity investment in a “qualified business”. The deduction is available after 2006 and the initial equity investment has to be made before 2010.

Credits against tax liability as follows:

- (1) Homestead property taxes. Limited to homesteads (excluding unoccupied agricultural properties) with a taxable value of \$135,000 or less and the maximum credit is \$1,200 (Note: maximum credit increases to \$1,500 in tax year 2018):
- (a) for taxpayers other than senior citizens – 60% of taxes in excess of 3.5% (decreasing to 3.2% in tax year 2018) of total household resources if total household resources are \$41,000 or less; credit reduced by 10% for each \$1,000 increment of total household resources (eliminated when the total household resources is \$50,000). The phase out range will increase to between \$51,000 and \$60,000 starting in tax year 2018;
 - (b) for senior citizens – 100% of taxes in excess of up to 3.5% (decreasing to 3.2% in tax year 2018) of total household resources if total household resources are \$21,000 or less; credit phases down by 4 percentage points for each \$1,000 increment of household resources until the credit reaches 60% of taxes in excess of 3.5% of total household resources (\$30,000 total household resources); credit is reduced further for total household resources above \$41,000 (10% for each \$1,000 increment of total household resource) and is eliminated when total household resources are \$50,000;
 - (c) for veterans, surviving spouses and blind individuals – credit based on taxable value allowance of between \$2,500 and \$4,500 depending on taxpayer’s status (e.g. veteran, spouse, blind); allowance divided by homestead’s taxable value to determine percent of tax relief; calculated percentage is multiplied by property taxes assessed to determine credit of up to \$1,200; credit is reduced further for total household resources above \$41,000 (10% for each \$1,000 increment of total household resource) and is eliminated when total household resources are \$50,000;
- (2) Property taxes on rented homesteads. Equal to 20% (increasing to 23% in tax year 2018) of gross rent paid (10% in certain subsidized housing projects). Credit reduced by proportion of income from welfare. Credit reduced by 10% at \$41,000 income and by another 10% for each \$1,000 increment above \$41,000.
- (3) Farmland property taxes. Available to farmers who have entered into an agreement not to develop their land for another use for a minimum of 10 years. For individuals, partnerships, S corporations and grantor trusts, credit is 100% of taxes in excess of 3.5% of household income.
- (4) Earned income. Equal to 6% of the Federal Earned Income Tax Credit (EITC). To qualify for the Federal EITC, taxpayers must meet certain requirements and file a tax return, even if they did not earn enough money to be obligated to file a return.
- (5) Income tax paid to another state.
- (6) Home heating costs for low-income families. Credit varies with household income, number of exemptions, and heating costs. Excludes dependent full-time students.

RATE:

4.25%. Beginning in tax year 2023, the rate would be reduced by a calculated amount in any fiscal year for which cumulative general fund/general purpose revenue growth between FY2021 and the most recently completed fiscal year exceeded a measurement of cumulative U.S. Consumer Price Index inflation over the same period.

CORPORATE INCOME TAX

LEGAL CITATION: [M.C.L. 206.601 et seq.](#); 2011 PA 39; [Section 7, Article IX, state Constitution](#).

YEAR ADOPTED: 2011. Originally authorized in 1967.

BASIS OF TAX: The tax is comprised of three distinct taxes:

- A corporate income tax on C corporations (and entities taxed as C corporations for federal income tax purposes). The income tax is a direct tax on business income;
- A premiums tax on insurance companies. The premiums tax is a direct tax on premiums written on property or risk located or residing in Michigan; and
- A franchise tax on financial institutions. The franchise tax is a direct tax on apportioned net capital.

Each tax applies to businesses with activity in the state and gross receipts exceeding \$350,000 sourced to Michigan.

MEASURE OF TAX (BASE): Corporate Income Tax
Business income for federal income tax purposes, subject to certain adjustments both before and after allocation or apportionment to Michigan. Federal taxable income is adjusted to:

- (1) add back certain federal income tax deductions (e.g., interest income and dividends from other states' obligations; income taxes paid; net operating loss carryback/forward; royalty, interest, or other expense paid to a person related to the taxpayer by ownership or control for the use of an intangible asset);
- (2) deduct certain items included in federal taxable income (e.g., dividends and royalties from non-U.S. entities; interest income from U.S. obligations; income and expenses from producing oil and gas);
- (3) deduct any business loss.

Apportionment: For corporations with activity entirely within Michigan, the tax base is allocated entirely to Michigan. For corporations with multi-state activity, the tax base is allocated in proportion to sales in Michigan.

Credit: The alternative small business tax credit is available to corporations other than financial institutions and insurance companies with gross receipts that do not exceed \$20 million and with adjusted business income, minus losses, that does not exceed \$1.3 million (adjusted annually for inflation). Eligible corporations pay an alternative 1.8% tax rate on adjusted business income.

Premiums Tax

Gross direct premiums written on property or risk located or residing in Michigan, excluding:

- (1) premiums on policies not taken;
- (2) returned premiums on canceled policies;
- (3) receipts from the sale of annuities;
- (4) receipts on reinsurance premiums if the tax was paid on the original premium; and
- (5) the first \$190 million of disability insurance premium, other than credit insurance and disability income insurance premiums

Franchise Tax

The financial institution's net capital after allocation or apportionment to Michigan. Net capital is averaged over a five-year period and excludes goodwill and the average daily value of obligations of the United States and Michigan.

- PA 247 — Reduced SBT tax rate to 2.3% effective October 1, 1994.
- G 1995 PAs 282 & 283 — Apportionment of tax base changed for tax years 1997 and 1998, so that sales account for 80%, and property and payroll account for 10% each; for tax years after 1999, sales account for 90%, and property and payroll account for 5% each; CAD limited to Michigan investments multiplied by apportionment factor.
- H 1999 PA 115 — Beginning January 1, 1999 the SBT rate is reduced by 0.1% per year until the tax is eliminated. The Insurance Tax rate is reduced proportionately to the SBT rate. The CAD was replaced with an investment tax credit, for tax years beginning after December 31, 1999.
- I 2006 — Legislative enactment of voter-initiated legislation to repeal SBT effective for tax years beginning after December 31, 2007.
- J 2007 PA 36 — Michigan Business Tax Act, consisting of an income tax (4.95% rate) and a modified gross receipts tax (0.8% rate), enacted to replace SBT as the primary business privilege tax in the state effective January 1, 2008. The MBT also replaced some personal property taxes.
- K 2011 PA 39 — Corporate Income Tax, consisting of an income tax (6.0% rate), premiums tax (1.25% rate), and franchise tax (0.29% rate), enacted to replace MBT as the primary business privilege tax in the state effective January 1, 2012.

* 1988 through 2007 excludes Single Business Tax collections paid by insurance companies.

UNIFORM CITY INCOME TAX

LEGAL CITATION:	M.C.L. 141.501 et seq. ; 1964 PA 284; Section 7, Article IX, state Constitution .
YEAR ADOPTED:	Uniform state law adopted in 1964. Individual cities adopted by ordinance in various years, subject to referendum upon petition of voters. Cities cannot impose a new city income tax after January 1, 1995 without voter approval.
BASIS OF TAX:	A direct tax on income (residents); a direct tax on earnings related to work or business activities conducted in the city (nonresidents); a direct tax on federal taxable income (corporations).
MEASURE OF TAX (BASE):	(1) Compensation, net profits, investments and other income of city residents; (2) Income earned in the city by nonresidents; (3) Corporate income earned in the city (allocation based on property, sales, payroll). Personal exemption allowed by United States internal revenue code, except that by ordinance a city may adopt an exemption of not less than \$600. A resident is allowed credit for income taxes paid to another city as a nonresident. A resident may deduct certain income earned, capital gains, and lottery winnings received while a resident of a renaissance zone and a business may deduct income attributable to business activity in a renaissance zone.
RATE:	Generally, 1% on residents and corporations; 0.5% on income of nonresidents earned in imposing city. The nonresident rate cannot exceed one-half of the resident rate. The city council in cities over 600,000 (Detroit) may impose rates of up to 2.4% on residents, 2.0% on corporations, 1.2% on nonresidents. Maximum rates may be further reduced until the rates reach 2.2% and 1.1% respectively (see box). (The rate appearing on income tax forms each calendar year is the average rate from before and after July 1 of that year.)

Detroit Income Tax Rate Revisions

[Public Act 394 of 2012](#) amended the City Income Tax Act to freeze a scheduled rollback of income tax rates for resident and nonresident taxpayers in the City of Detroit. The act established a new maximum rate of 2.4% for residents and 1.2% for nonresidents effective in the 2013 tax year. The act was part of a legislative package that authorized the creation of a public lighting authority within the city to service and operate the municipally owned lighting system. The act provided that if such an authority is created (which the Detroit City Council did vote to approve in 2013), the revenue collected from 0.2% of the rate levied on residents and 0.1% of the rate levied on nonresidents is dedicated to the city's police department budget.

Beginning in the tax year immediately following the year in which all bonds and indebtedness issued by the new lighting authority have been fully paid, the maximum rates will be reduced to 2.2% for residents and 1.1% for nonresidents.

The new act effectively suspended the income tax rate rollback required in [Public Act 500 of 1998](#). That law required that the resident tax rate be reduced by one-tenth of a percentage point per year from its 1999 level of 3.0%, with the nonresident rate reset to one-half of the resident rate, over a ten-year period until the new rates became 2.0% and 1.0% respectively.

A city that levied an income tax and where more than 22 mills had been levied in the city for city purposes and at least 65 mills for all purposes during the prior calendar year was allowed to impose rates of up to 2% on residents and corporations and 1% on nonresidents if approved by voters before November 15, 1988. This provision applied to Highland Park.

Cities that levied an income tax before March 30, 1989 and with (a) populations between 140,000 and 600,000 (Grand Rapids); or (b) populations between 65,000 and 100,000 in a county with a population below 300,000 (Saginaw) may increase the tax rate to not more than 1.5 percent on residents and corporations and 0.75 percent on nonresidents if approved by voters.

OUTLINE OF THE MICHIGAN TAX SYSTEM

UNEMPLOYMENT INSURANCE TAX

LEGAL CITATION:	M.C.L. 421.1 et seq. ; 1936 PA 1 (Extra Session).												
YEAR ADOPTED:	1936												
BASIS OF TAX:	To provide for an Unemployment Insurance Fund.												
MEASURE OF TAX (BASE):	Wages paid per covered employee up to a limit of \$9,500 or wages equal to the federal unemployment tax base if higher; limit lowered to \$9,000 for nondelinquent employers if Unemployment Compensation Fund balance reaches \$2.5 billion.												
RATE:	Basic rate is 2.7% on new employers for their first two years of liability, except for construction contractors who pay the average construction contractor rate. Rate for fully experienced employers (after 4 years experience) may vary from 0.06% to 10.3%, depending on the employer's experience rating and solvency of the fund. Total tax rate calculation is based on the following components: <i>Nonchargeable Benefit Component (NBC)</i>: a rate of 0.06-1% to cover certain benefit costs not directly charged to an employer account (e.g., employer is out of business). These costs are pooled across all employers. The 1% standard rate is charged to employers with recent claims filed against their accounts. If an employer's CBC rate (see below) is less than 0.2%, that employer's NBC rate falls to 0.5%. If the employer has not had any benefit charges over a number of consecutive years, the NBC rate can be further reduced in accordance with the following schedule: <table> <tr> <th>If Number of Consecutive Years without Claims is:</th><th>Rate Is:</th></tr> <tr> <td>5</td><td>0.10%</td></tr> <tr> <td>6</td><td>0.09%</td></tr> <tr> <td>7</td><td>0.08%</td></tr> <tr> <td>8</td><td>0.07%</td></tr> <tr> <td>9</td><td>0.06%</td></tr> </table> <i>Experience Account</i>, which has two parts: <i>Chargeable Benefit Component (CBC)</i>, a rate of 0-6.3% measured by the "benefit ratio" (benefits charged to employer's account in the last 3 years as a percent of employer's taxable wages in those years). <i>Account Building Component (ABC)</i>, a rate of 0-3% based on a "reserve ratio" deficiency (amount by which an employer's actual reserve falls below 3.75% of total annual payroll). If overall trust fund balance is at least 1.875% of all contributing employers' payrolls, employer's deficiency, as defined above, is multiplied by 0.25, not to exceed a 2% rate. Otherwise, employer's deficiency is multiplied by 0.5, not to exceed a 3% rate. If overall trust fund balance is 1.2% of all contributing employer's payrolls, all fully experience-rated employers (after 2 years experience) receive a rate reduction of the greater of 10% or 0.1 percentage points in the rate determined by components (a) and (b) above. <i>Solvency Tax</i>, a rate of 0-2% based on a "reserve ratio" deficiency, imposed only on "negative balance" employers (those with deficit in their experience account as of the prior June 30) who have been contributing employers for five or more years; solvency tax imposed only during years when the fund has interest-bearing loans outstanding; tax is not currently imposed. QUALITY ASSURANCE ASSESSMENT FEES

LEGAL CITATION:	M.C.L. 333.20161 , M.C.L. 400.109f ; 2002 PA 303, 304, & 562; 2005 PA 83
YEAR ADOPTED:	2002
BASIS OF TAX:	Privilege of participating in the Medicaid program.
MEASURE OF TAX (BASE):	The tax base varies by type of provider. For hospitals, the number of licensed beds is assessed a uniform charge per bed. For nursing and hospital long-term care units, the assessment is based on the total number of patient days of care each nursing and long-term care unit provided to non-Medicare patients during the preceding year. Assessments are charged by the state on hospitals and on nursing and long-term care facilities. The resulting revenue collections, combined with federal matching revenues, are used to increase the rates paid by the state to these providers of services to patients participating in the Medicaid program.
RATE:	The rates for the providers are as follows: • <i>For hospitals</i>, a fixed or variable rate that generates funds not more than the maximum allowable under federal matching requirements. • <i>For nursing and hospital long-term care units</i>, an amount resulting in not more than 6% of total industry revenues.
ADMINISTRATION:	Department of Community Health .
REPORT AND PAYMENT:	The Department of Community Health sends each provider a statement of the amounts owed for the particular assessment. Payments received are deposited in the State Treasury.
DISPOSITION:	The assessment revenues finance part of the Medicaid program and are restricted for that purpose. This revenue is used to capture additional Federal funding for the Medicaid program and offset the amount of General Fund resources allocated to the program.
2014-15 COLLECTIONS:	\$1,007,464,000

Medicaid Managed Care Organizations

Effective October 1, 2009, the Federal Deficit Reduction Act required that a quality assurance assessment program (QAAP) fee charged by a state must be uniform across all service providers, regardless of whether or not they serve Medicaid-eligible individuals. This uniformity requirement effectively prevented the State of Michigan from assessing the QAAP fee selectively on Medicaid managed care organizations to support the state's Medicaid program and to provide general budgetary relief. In response to this, the state enacted changes to the Use Tax Act ([PA 440 of 2008](#)) to apply the 6% use tax to the use or consumption of medical services provided by Medicaid managed care organizations (health maintenance organizations (HMOs) and prepaid inpatient health plans (PIHPs)), the same organizations that were previously subject to the QAAP. The use tax changes took effective April 1, 2009.

[PA 440 of 2008](#) also repealed the relevant sections of the Social Welfare Act that authorized the QAAP fee for the HMOs and PIHPs, effectively terminating the assessments for these entities on April 1, 2009.

[PA 141 of 2011](#) amended the Use Tax Act to terminate the use tax on medical services provided by Medicaid managed care organizations and prepaid inpatient health plans effective March 31, 2012. To replace the lost state revenue from the use tax changes (approximately \$400 million annually), [PA 142 of 2011](#) required a 1% assessment on health insurance claims effective January 1, 2012 (see Health Insurance Claims Assessment Fee).

This financing strategy was revisited in 2014, and [PA 161 of 2014](#) effectively restores the use tax on Medicaid managed care organizations effective April 1, 2014. The assessment rate on health insurance claims was reduced to 0.75% via tie-barred legislation that was enacted as [PA 162 of 2014](#).

HEALTH INSURANCE CLAIMS ASSESSMENT FEE

LEGAL CITATION:	M.C.L. 550.1731 et seq. ; 2011 PA 142
YEAR ADOPTED:	2011. Authorizing act will sunset on January 1, 2018.
BASIS OF TAX:	Direct assessment on paid health care claims.
MEASURE OF TAX (BASE):	Paid claims include actual payments, net of recoveries, made to a health and medical services provider or reimbursed to an individual by a carrier, third party administrator, or excess loss or stop loss carrier. Certain claims and health-related payments are exempt from the assessment: • Claims paid for services provided to persons who are not residents of Michigan; • Claims paid for services provided outside of Michigan to Michigan residents; • Claims-related expenses; • Claims paid under specified accident or accident-only coverage, credit, disability income, long-term care, automobile insurance, homeowners insurance, farm owners' insurance, commercial multi-peril coverage, worker's compensation, and coverage issued as a supplement to liability insurance; • Claims paid under a federal employee health benefit program, Medicare, Medicare Advantage, Medicare Part D, Tricare, by the U. S. Veterans Administration and for certain high risk pools; and • Reimbursements to individuals under a flexible spending arrangement, a health savings account, an Archer medical savings account, a Medicare Advantage medical savings account, or other health reimbursement arrangements authorized under federal law. Each carrier or third party administrator that pays the assessment will receive a proportional credit against the carrier's or third party administrator's assessment in the succeeding year if the total revenue generated by the assessment combined with the net general fund/general purpose revenue generated by the use tax imposed on Medicaid managed care organizations exceeds \$450 million.
RATE:	0.75% on paid claims; however, there is a cap of \$10,000 per individual. Also, certain commercial carriers would be subject to an assessment of 0.1%. If the federal government informs the state that revenues from the use tax imposed on Medicaid managed care organizations will not be federally reimbursed under the Medicaid program, the rate imposed on paid claims will automatically increase to 1%. As of the date of publication, Michigan had received notice from the federal government that this component of the use tax must be repealed by January 1, 2017.
ADMINISTRATION:	Department of Treasury.
REPORT AND PAYMENT:	Quarterly payments due on April 30, July 30, October 30, and January 30.
DISPOSITION:	Deposited in the Health Insurance Claims Assessment Fund to finance part of the Medicaid program and are restricted for that purpose.

SALES TAX (CONTINUED)

RATE:	6% (state constitutional limitation). The Sales Tax can be considered two taxes, a 4% tax and a 2% tax. The 4% tax is established by law within the confines of a 4% limitation placed in the state Constitution. The voters approved an amendment to the Constitution which authorized the remaining 2% tax rate in 1994. Because the state Constitution states that this additional tax <i>shall</i> be imposed, the 2% tax is the minimum rate that must be levied by the legislature. Sales for residential use of electricity, natural or artificial gas, or home heating fuels are exempted from the additional 2% rate added in 1994 and are therefore subject only to the 4% rate.
ADMINISTRATION:	Michigan Department of Treasury.
REPORT AND PAYMENT:	For most taxpayers: payment is due by 20th day of month following sale, with discount for early remittance. Very large taxpayers (those with sales tax liability, or use tax liability, or both, of \$720,000 or more during the prior calendar year) make a monthly payment due by the 20th of the month that is equal to the lesser of (a) 75% of the tax liability for the same month in the prior calendar year or (b) 75% of liability for the previous month. In either case, a reconciliation payment is also required equal to any shortfall in the prior month's payment based on final sales.
DISPOSITION:	The disposition of sales tax revenue is tied to the distinct 4% tax and 2% tax discussed in the previous section. Since the tax base to which the 2% rate is applied is somewhat smaller than the base for the 4% rate (which includes residential utility sales), the noted percentages vary by a small amount from year to year. Revenues are distributed as outlined below: School Aid Fund: 60% of gross revenue generated from the 4% tax rate and 100% of the revenue generated from the additional 2% tax rate. For FY2015, this equated to 72.7% of total sales tax revenue. Local Governments: 15% of gross revenue generated from the 4% tax is constitutionally dedicated for revenue sharing to cities, villages, and townships; an additional allocation from the sales tax is appropriated by the legislature for statutory revenue sharing to local units of government. For FY2015, the total earmark equated to 16.7% of total revenue. Comprehensive Transportation Fund: 6.975% of sales tax revenue generated from the 4% tax from the sales of motor fuel, motor vehicles, and motor vehicle parts and accessories is statutorily earmarked to the state's Comprehensive Transportation Fund to support public transportation programs. For FY2015, this equated to 1.3% of total revenue. Aeronautics Programs: An amount equal to the sales tax revenue generated from the 2% tax from the sale at retail of aviation fuel shall be deposited into funds for aeronautics programs: 65% into the Qualified Airport Fund and 35% into the State Aeronautics Fund. This new allocation was not applicable in FY2015. Health Initiative Fund: An amount equal to the sales tax revenue generated from the 4% tax from the sale at retail of computer software is statutorily earmarked to the Health Initiative Fund, which supports policy planning and public information regarding AIDS and Hepatitis C. For FY2015, this equated to 0.1% of total revenue. Remaining revenue, about 9.2% of total revenue in FY2015, to the state's general fund.
2014-15 COLLECTIONS:	\$7,246,400,000
2014-15 COLLECTIONS/UNIT:	\$1,207 million per 1%

SALES TAX (CONTINUED)

- A 1933 PA 167 — Sales Tax established at 3%.
- B 1960 Const Amend — Increased tax rate limitation to 4%.
- C 1974 Const Amend — Eliminated sales and use taxes on food and prescription drugs.
- D 1993 PA 325 — Increased tax rate to 6% effective May 1, 1994, subsequent to adoption of Proposal A.

Are Local Sales Taxes Constitutionally Permitted in Michigan?

Local units in many states levy sales taxes that are piggy-backed on a uniform state sales tax rate. Such situations create unevenness among local jurisdictions and competitive disadvantages for businesses in the higher tax jurisdictions. They also yield a significant revenue source that relieves pressure on the property tax and shifts some of the costs for local services outside the boundaries of the governmental unit.

Michigan's Constitution fails to deal explicitly with the question of whether local units could be permitted to levy a sales tax. Instead, the 1963 Constitution set a maximum rate of 4% that the legislature could levy and later, as a result of Proposal A, an additional 2% rate was mandated for local public schools.

Confronted with this question in 1970, the Attorney General ruled that local sales taxes are not permitted under Michigan's Constitution. In 1991, the legislature approved a bill permitting certain municipalities to impose an excise tax at a rate not to exceed 1% of the gross receipts of restaurants and hotels and 2% of automobile rental company gross receipts. These excise taxes reflect most of the elements of a sales tax and the tax on restaurants appears to fully meet all criteria defining a sales tax, notwithstanding the "excise tax" disguise.

Readers interested in more information on this subject are encouraged to review Report #305, *Issues Relative to the Constitutionality of Local Sales Taxation in Michigan*, June 1992, available on the CRC website at www.crcmich.org.

OUTLINE OF THE MICHIGAN TAX SYSTEM

USE TAX / STATE SHARE TAX

LEGAL CITATION:	M.C.L. 205.91 et. seq. ; 1937 PA 94; Section 8, Article IX, state Constitution .
YEAR ADOPTED:	Originally adopted as the use tax in 1937. Use tax was reorganized into the State Share Tax and Local Community Stabilization Share Tax by 2014 PA 80; these changes became effective October 1, 2015.
BASIS OF TAX:	Privilege of using, storing, and consuming certain tangible personal property, plus the services of telephone, telegraph, and other leased wire communications, and medical services provided by Medicaid managed care organizations; used auto sales between individuals; and use of transient hotel and motel rooms. Designed to complement the Sales, Mobile Home Trailer Coach, Aircraft Weight, Watercraft Registration, and Snowmobile Registration Taxes.
MEASURE OF TAX (BASE):	Purchase price of tangible personal property or service. Certain sales with the following characteristics are exempt from taxation, as follows: <i>Exemptions based on status of purchaser:</i> • property purchased for resale or for demonstration; • property purchased for lend-lease to a public or parochial school offering drivers education; • property of a nonresident brought into Michigan on a temporary basis and not used in non-transitory business activity for a period exceeding 15 days; • property sold to the federal government or to an instrumentality thereof, the American Red Cross and its chapters and branches, and departments, institutions, or subdivisions of state government; • property sold to nonprofit organizations used primarily for the organization's purposes; • property sold to churches for noncommercial purposes and certain vans and buses used to transport persons for religious purposes; • certain property sold to commercial radio and television station licensees; • vehicles purchased in another state by nonresident active military personnel and upon which a sales tax was paid in the other state; • vehicles not purchased for resale which are used by nonprofit corporations organized exclusively to provide a community with ambulance or fire department service; • property sold to qualified taxpayers to be stored, used, or consumed at a producing nonferrous mineral mine or a facility where nonferrous minerals are beneficiated; • property donated by a manufacturer, retailer, or wholesaler to certain tax exempt organizations; • property purchased by a specified relative of seller; • transfers of a vehicle, off-road vehicle, manufactured housing, aircraft, snowmobile, or watercraft if the transferee or purchaser is a specified relative-in-law; • parts, excluding shop equipment and fuel, affixed to certain passenger and cargo aircraft owned or used by a domestic air carrier; • equipment sold to an extractive operator (i.e., natural resources); • the storage, use, or consumption of certain trucks, trailers, as well as parts and certain property affixed thereto used by interstate motor carriers; • the storage, use, or consumption of a passenger or cargo aircraft purchased by, or leased to, a domestic air carrier with a maximum certified takeoff weight of at least 6,000 pounds; • employees of restaurants for food provided by their employer; • storage, use, or consumption of an eligible automobile provided to a qualified recipient by the Department of Human Services or another qualified organization; • motor vehicles, recreational watercraft, snowmobiles, or all-terrain vehicles, and mobile homes sold to resident tribal members if the purchased item is for personal use and is to be used on the resident tribal member's tribe agreement area;

USE / STATE SHARE TAX (CONTINUED)

- use of data center equipment by either the owner or operator of a “qualified data center” or colocated business in the operations of the center or by a person engaged in construction where the equipment is to be affixed or made part of a “qualified data center”; this exemption applies until December 31, 2035 and is subject to certain job creation targets specified in statute.

Exemptions based on item purchased:

- property which Michigan is prohibited by federal law from taxing;
- copyrighted motion picture films, newspapers, and periodicals classified as second class mail;
- vehicle purchased for resale by a new vehicle dealer;
- certain computer software that was written for exclusive use of the purchaser and related technical support;
- prosthetic devices, durable medical equipment, and mobility enhancing devices;
- water delivered through water mains or bulk tanks of at least 500 gallons;
- certain components of water and air pollution control facilities;
- aircraft operating under a federal certificate which have a maximum takeoff weight of at least 12,500 pounds and used solely to transport cargo or commercial passengers;
- railroad cars, locomotives, and accessories;
- certain property purchased for resale as promotional merchandise;
- drugs that can only be legally dispensed by prescription and over-the-counter drugs legally dispensed by prescription for human use;
- food for human use not prepared for immediate consumption;
- deposits on returnable beverage containers;
- international and WATS line telephone calls;
- commercial advertising elements;
- assessments for hotel or motel rooms imposed pursuant to accommodations taxes;
- prepaid telephone cards, prepaid authorization numbers, and charge for Internet access;
- storage, use, and consumption of investment coins and bullion;
- certain aircraft and aircraft parts temporarily located in Michigan;
- partial exemption (from two percentage points of the tax rate): consumption for residential use of electricity, natural gas, and home heating fuel.

Exemptions based on transaction type:

- statutorily-defined portion (\$3,000 in 2015) of the agreed-upon trade-in value of a motor vehicle or recreational vehicle that is applied toward the purchase of another new or used motor vehicle or recreational vehicle; allowable credit is increased incrementally until January 1, 2038 when the full trade-in value becomes tax exempt;
- agreed-upon trade-in value of a watercraft that is applied toward the purchase of another new or used watercraft;
- property upon which the Michigan Sales Tax has been paid;
- property upon which sales or use tax was paid in another state or local unit of another state if that tax was at least equal to the Michigan use tax and the other state has a reciprocal exemption for Michigan taxes paid;
- property, possession of which was taken outside Michigan and the value of which does not exceed \$10 during one calendar month;
- certain food or tangible personal property purchased with federal food stamps.

Exemptions based on the use of the property or service:

- tangible personal property purchased by a person engaged in constructing, altering, repairing, or improving real estate if it is to be affixed or made a structural part of real estate located in another state or of a sanctuary;

- computer equipment for data transfer by companies whose business includes publishing doctoral dissertations and information archiving and sells the majority of its products to non-profit organizations exempt from the federal income tax.

RATE:

6% through September 30, 2015. Beginning October 1, 2015, the new state share rate will be 6% minus the local community stabilization share rate as determined annually by the Department of Treasury (see related box).

The state constitution limits the use tax rate to 6%. The original Use Tax can be considered two different taxes. The 4% tax was established by law to parallel the Sales Tax rate. The voters approved the remaining 2% tax rate in 1994. Because the state Constitution states that this additional tax *shall* be imposed, the 2% tax is the minimum rate that must be levied by the legislature.

These limitations apply to the combined State Share Tax rate and Local Community Stabilization Share Tax.

ADMINISTRATION:

[Michigan Department of Treasury.](#)

REPORT AND PAYMENT:

For most taxpayers: payment is due by 20th day of month following sale, with discount for early remittance.

Very large taxpayers (those with sales tax liability, or use tax liability, or both, of \$720,000 or more during the prior calendar year) make a monthly payment due by the 20th of the month that is equal to the lesser of (a) 75% of the tax liability for the same month in the prior calendar year or (b) 75% of actual liability for the previous month. In either case, a reconciliation payment equal to any shortfall in the prior month's payment based on final sales.

DISPOSITION:

Revenue generated from the additional rate of 2% approved by Michigan voters in March 1994 is deposited in the School Aid Fund.

From the revenue generated by the original 4% rate, revenue is deposited in the School Aid Fund in an amount equal to the revenue loss from the State Education Tax and certain school operating millages attributable to property tax exemptions enacted in 2014 for certain commercial and industrial personal property.

An amount equal to the use tax revenue generated from the 2% tax from the use of aviation fuel shall be deposited into funds for aeronautics programs: 65% into the Qualified Airport Fund and 35% into the State Aeronautics Fund. Remaining revenue goes to the General Fund.

2014-15 COLLECTIONS: \$2,042,667,603 (includes revenue from Use Tax imposed on Medicaid managed care organizations)

2014-15 COLLECTIONS/UNIT: \$340 million per 1%

Recent Changes to Disposition of Use Tax Revenue

In August 2014, Michigan voters approved a significant change to the disposition of Michigan's Use Tax revenue. The change is related to legislative packages enacted in 2012 and 2014 that will phase out the personal property tax on eligible industrial and commercial personal property. The phase out by itself would lead to significant reductions in local property tax revenues. In order to reimburse local governments for most of those lost revenues, the legislation sets aside a portion of Use Tax revenues for payments to eligible local units. [Public Act 80 of 2014](#) divided the use tax into two distinct taxes: a local community stabilization share tax to be levied by a newly created Local Community Stabilization Authority, ostensibly a local unit of government governed by a council composed of five members appointed by the Governor; and a state share tax which will continue to be levied by the state.

The rate of the local community stabilization share will be calculated annually by the Michigan Department of Treasury to equal the rate necessary to generate specific revenue targets contained in the legislation. This component of the Use Tax will take in \$96.4 million in FY2016, \$380.9 million in FY2017, and then gradually rise to \$572.6 million in FY2028. After FY2028, the revenue target will be adjusted by an annual 1% growth factor. The state share rate will then be the current 6 percent use tax rate minus the calculated local community stabilization share rate. All of the funds attributed to the local community stabilization share will come out of revenues generated from the original 4 percent Use Tax rate that was previously earmarked to the general fund. The general fund will then receive the remaining revenue from the tax at the 4 percent rate. The tax's allocation to the School Aid Fund from the additional 2 percent rate approved in 1994 would be unaffected.

OUTLINE OF THE MICHIGAN TAX SYSTEM

GENERAL PROPERTY TAX

LEGAL CITATION: [M.C.L. 211.1 et seq.](#); 1893 PA 206; Sections [3](#) and [6](#), Article IX, state Constitution.

YEAR ADOPTED: 1893. Territorial Act.

BASIS OF TAX: Ownership of real and personal property not otherwise exempted.

Real versus Personal Property

The distinction between real and personal property is relatively straightforward. Real property is basically land and buildings. Personal property is generally movable. Personal property includes a broad array of assets, including most equipment, furniture, and fixtures used by businesses. In addition, electric transmission and distribution equipment, gas transmission and distribution equipment, and oil pipelines are all considered personal property.

Establishing the assessed value of real versus personal property involves different methodologies, although all taxable property is required to be assessed at 50% of true cash value, the state equalized valuation. Real property assessments are developed by comparing similar properties and principally use sales and cost data to establish assessment changes. Personal property assessments use acquisition costs adjusted by depreciation multipliers to reflect declining values, as an asset ages.

Property taxes are determined by multiplying the tax rate by the taxable value of a parcel of property. The taxable value of a parcel may differ from the state equalized value as a result of limits on increases placed in the Michigan Constitution by Proposal A of 1994. Taxable value may not rise by more than the lesser of the increase in the consumer price index or 5%. The methodology used to assess personal property virtually assures that a parcel's assessed and taxable values will be the same. In contrast, real property had a gap of 17% between assessed and taxable values in 2015.

MEASURE OF TAX (BASE): Taxable value, which cannot increase in any one year by more than the lesser of 5% or inflation, excluding additions and losses. When transferred, property is reassessed in accordance with state equalized valuation which equals 50% of true cash value. The taxable value for agricultural property being transferred between owners will remain capped if the new owner keeps the property in agricultural use for at least seven years from the date of transfer. If the property ceases to be agricultural property within the seven-year period, the property's taxable value will be adjusted to reflect the property's state equalized valuation. The taxable value for qualified forest property being transferred between owners will remain capped if the new owner keeps the property as qualified forest property for at least 10 years from the date of transfer. If the property ceases to be qualified forest property within the 10-year period, the property's taxable value will be adjusted to reflect the property's state equalized valuation.

Numerous exemptions exist, notably:

- (1) certain property owned by nonprofit religious, charitable, or educational organizations;
- (2) government property;
- (3) property subject to specific state taxes (e.g., railroad and telephone property, intangibles, motor vehicles);
- (4) property subject to specific local taxes in lieu of property taxation, such as commercial forest land; mobile homes; low grade iron ore; certified industrial, commercial, technological, commercial housing facilities, obsolete property rehabilitation; certain nonferrous minerals and mineral-producing property; and eligible hydroponics and aquaculture production facilities.
- (5) certain household property, personal business property and mechanic's tools;
- (6) personal property used in agricultural operations;
- (7) inventory property;
- (8) special manufacturing tools (dies, jigs, fixtures, molds, etc.);
- (9) solar, water or wind energy conversion devices (pre-1984);

GENERAL PROPERTY TAX (CONTINUED)

Phase-Out of the Personal Property Tax on Certain Manufacturing Property

Legislation enacted in 2012 and 2014 phases out the personal property tax (PPT) on most industrial and commercial personal property. The new laws will:

- Effective for tax year 2014, exempt all commercial and industrial personal property (regardless of use) from the PPT if the combined true cash value of the property owned or controlled by a taxpayer in a given local tax collecting unit is less than \$80,000.
- Beginning in tax year 2016, exempt all new industrial personal property and any new commercial personal property used primarily for or in direct support of industrial processing that was purchased and placed into service during or after 2013.
- Beginning in tax year 2016 and continuing thereafter, exempt any industrial personal property and any new commercial personal property used primarily for or in direct support of industrial processing that has effectively been placed in service for the immediately preceding 10 years.

The table below illustrates how the phased in exemption will work. Again, property becomes exempt immediately in 2014 if an individual controls property with a total true cash value below \$80,000. Remaining personal property tied to industrial processing will become exempt over time based on the year it was first placed into service. In tax year 2016, new personal property tied to industrial processing and placed into service after December 31, 2012 will all become exempt. Further, any eligible personal property placed into service before 2006 will also become exempt from the PPT. In 2017, the exemption will be expanded to cover eligible personal property placed into service during 2006. Likewise, in tax year 2018, property placed into service during 2007 will become exempt. This gradual phase-in will continue until all eligible property becomes exempt in tax year 2023.

GENERAL PROPERTY TAX (CONTINUED)

- (10) property in transit located in a public warehouse, dock or port facility;
- (11) property located in a renaissance zone, except for the portion of tax attributable to special assessments, taxes levied for the payment of general obligation bonds, intermediate school district-wide enhancement mills and local school district sinking fund millages;
- (12) federally-qualified health centers;
- (13) biomass gasification systems, thermal depolymerization systems, and methane digesters;
- (14) personal property designated as industrial and commercial property for school operating millages;
- (15) new personal property in one or more "distressed parcel", subject to local approval;
- (16) supportive housing property for school operating millages;
- (17) property occupied by a public school academy (charter school) and used exclusively for educational purposes for school operating millages;
- (18) commercial and industrial personal property owned by a taxpayer with a true cash value of less than \$80,000 in a particular tax collecting unit;
- (19) Beginning in 2016, the tax is phased out for certain personal property used primarily for, or in direct support of, industrial processing. The phase out continues until all such property is exempt in 2023;
- (20) Real and personal property owned by a nonprofit street railway.

Credits for property taxes paid: see Personal Income Tax.

RATE:

Varies by local unit, but certain statewide constitutional and statutory restrictions exist. The rate may not exceed 15 mills (\$15 per \$1,000) or 18 mills in counties with separate, voter-fixed allocations for all jurisdictions without voter approval. (These limitations were reduced by the number of mills allocated to local school districts in 1993, after which local school districts may not receive allocated millage.)

The foregoing limitations may be increased up to 50 mills with voter approval. Excluded from these limitations are:

- (1) Debt service taxes for all full faith and credit obligations of local units;
- (2) Taxes imposed by units having separate tax limitations provided by charter or general law (cities, villages, charter townships, and charter counties);
- (3) Taxes imposed by certain districts or authorities having separate limits (e.g., charter water authorities, port districts, metropolitan districts, and downtown development authorities);
- (4) Certain taxes imposed by municipalities for special purposes (garbage services, library services, services to the aged, and police and fire pension funding).

The state constitutional tax limitation amendment of 1978 (Headlee) and state law require a taxing jurisdiction to roll back maximum authorized rates if the state equalized value, excluding new construction, increases faster than the rate of inflation (which the governing body can overcome by vote). Local school district operating taxes are limited to the lesser of 18 mills or the 1993 millage rate. Principal residence, industrial personal property, and qualified agricultural property is entirely exempt from school millages. Commercial personal property is partially exempt (12 of the 18 mills). However, school districts with a 1994-95 per pupil foundation allowance of over \$6,500 may reduce the exemption on principal residence and qualified agricultural property by the number of mills necessary to raise that portion of their per pupil foundation allowance that exceeds \$6,500 and, if necessary, also may levy additional mills on all property to generate that additional per pupil dollar amount. In addition, voters in intermediate school districts may approve up to 3 additional mills for operating purposes. In calendar year 2015, the state average millage rate, including the 6-mill State Education Tax, was 41.1 mills.

GENERAL PROPERTY TAX (CONTINUED)

ADMINISTRATION: Property assessed by city and township assessors; values equalized by county and state among six classifications of real property (residential, commercial, industrial, developmental, agricultural, and timber cutover) plus personal property. Collection by township, city, and county treasurers. Delinquent taxes on real property collected by county treasurers (except in Kalamazoo).

REPORT AND PAYMENT: Township and county taxes due December 1. School taxes due December 1, unless school board elects to make all or one-half due July 1. City and village taxes due in accordance with charters.

DISPOSITION: As locally determined. The state reimburses local governments for certain lands controlled by the Michigan Department of Natural Resources, in lieu of property taxes (often called "the swamp tax"); this reimbursement is equal to \$2.00 an acre. (M.C.L. 324.2150)

YEAR ADOPTED:	Various (see above).
BASIS OF TAX:	Ownership of real property.
MEASURE OF TAX (BASE):	Taxable value of the real property subject to the assessment. Property that is exempt from the General Property Tax, such as religious, charitable, or educational property is not exempt from the base of special assessments unless the statute authorizing the specific type of special assessment so provides. PA 33 and PA 197 exempt property that is exempt from the General Property Tax Act. PA 279 prohibits city-wide ad valorem special assessments for street lighting if real property in the city is assessed on ad valorem basis.
RATE:	Determined as a rate by dividing the cost of the public improvement or service being financed by the taxable value of the special assessment district. In some cases, limits, as to the rate, are established in law. PA 33 limits levy to 10 mills for equipment, no limit for operations. PA 116 limits levy for a single assessment to 15% of assessed value and to 45% of assessed value for all assessments under the Act in any single year. PA 197 limits levy to 2 mills.
ADMINISTRATION:	Same as General Property Tax.
REPORT AND PAYMENT:	Same as General Property Tax.
DISPOSITION:	Locally determined.
2015 COLLECTIONS:	\$155,401,549 (unit-wide special assessments only).

MOBILE HOME TRAILER COACH TAX

YEAR ADOPTED:	1959
BASIS OF TAX:	In lieu of general property taxation.
MEASURE OF TAX (BASE):	Occupied mobile homes in licensed trailer coach parks.
RATE:	\$3 per month per occupied trailer coach.
ADMINISTRATION:	Township or city treasurer.
REPORT AND PAYMENT:	Due each month.
DISPOSITION:	\$2 per coach to School Aid Fund; 50 cents per coach to county in which coach is located; and 50 cents per coach to municipality in which coach is located.

OUTLINE OF THE MICHIGAN TAX SYSTEM

INDUSTRIAL FACILITIES TAX

LEGAL CITATION:	M.C.L. 207.551 et. seq. ; 1974 PA 198.
YEAR ADOPTED:	1974
BASIS OF TAX:	In lieu of general property taxation for up to 12 years after completion of facilities granted exemption certificates within plant rehabilitation or industrial development districts.
MEASURE OF TAX (BASE):	<i>Replacement facility:</i> taxable value of facility, excluding land and inventory, in year prior to granting of exemption certificate. <i>New or speculative facility:</i> current taxable value of facility, excluding land and inventory. Industrial personal property subject to the tax may be exempt from the portion of the tax attributable to the State Education Tax or local school operating taxes. Partial exemption for facility located in a renaissance zone.
RATE:	<i>Replacement facility:</i> same as the local property tax rate. <i>New or speculative facility:</i> The State Education Tax plus 1/2 of all other taxes. Certificate applicants and the granting municipality must enter into an agreement before the State Tax Commission can approve an exemption certificate.
ADMINISTRATION:	Same as General Property Tax. Local legislative body and State Tax Commission must approve issuance of certificate with concurrence of the Michigan Economic Development Corporation.
REPORT AND PAYMENT:	Same as General Property Tax.
DISPOSITION:	Distributed on same basis as General Property Tax except that all or part of school district share is credited to the School Aid Fund.

OBSOLETE PROPERTIES TAX

LEGAL CITATION:	M.C.L. 125.2781 et seq. ; 2000 PA 146.
YEAR ADOPTED:	2000
BASIS OF TAX:	In lieu of general property taxation for up to 12 years after completion of facility. Partial exemption for facility located in a renaissance zone. New exemptions cannot be granted after December 31, 2016; however, existing exemptions in effect as of this date shall remain in effect until their expiration.
MEASURE OF TAX (BASE):	For all taxes levied, taxable value of facility in year prior to granting of exemption certificate, excluding land and personal property other than buildings on leased land. For local school operating taxes and the State Education Tax, add the increase in the taxable value of the rehabilitated facility to the frozen taxable value of the facility.
RATE:	Varies by local unit. Total millage rate for all taxing units. State Treasurer can exempt, for up to six years on the post-rehabilitation taxable value, up to one-half of the mills levied for local school operating purposes and the State Education Tax.
ADMINISTRATION:	Same as General Property Tax. Local legislative body and State Tax Commission must approve issuance of certificate.
REPORT AND PAYMENT:	Same as General Property Tax.
DISPOSITION:	Same as General Property Tax, except that revenue that is attributable to local school districts and intermediate school districts is credited to the state School Aid Fund.

NEIGHBORHOOD ENTERPRISE ZONE FACILITIES TAX

LEGAL CITATION:	M.C.L. 207.771 et seq. ; 1992 PA 147.
YEAR ADOPTED:	1992
BASIS OF TAX:	In lieu of general property taxation for up to 15 years after rehabilitation or completion of facility granted exemption. Partial exemption for facility located in a renaissance zone.
MEASURE OF TAX (BASE):	<i>New facility:</i> taxable value of facility, excluding land. <i>Rehabilitated facility:</i> taxable value of facility in year prior to granting of exemption certificate, excluding land. For last three years of exemption, current taxable value of facility, excluding land. <i>Homestead facility:</i> taxable value of facility, excluding land.
RATE:	<i>New facility</i> – principal residence: 1/2 of the state average tax rate in the immediately preceding calendar year on other principal residence or qualified agricultural property. <i>New facility</i> – non-principal residence: 1/2 of the state average tax rate in the immediately preceding calendar year on other commercial, industrial, and utility property. <i>Rehabilitated facility:</i> total property tax rate levied under General Property Tax, varies by local unit. <i>Homestead facility:</i> total property tax rate levied under General Property Tax less the sum of one-half of the operating tax rate levied by the local unit in which the facility is located and one-half of the operating tax rate levied by the county in which the facility is located. <u>Two Years before the Exemption Expires</u> Total property tax rate levied under General Property Tax less the sum of three-eighths of the operating tax rate levied by the local unit in which the facility is located and three-eighths of the operating tax rate levied by the county in which the facility is located. <u>One Year before the Exemption Expires</u> Total property tax rate levied under General Property Tax less the sum of one-fourth of the operating tax rate levied by the local unit in which the facility is located and one-fourth of the operating tax rate levied by the county in which the facility is located. <u>Year that the Exemption Expires</u> Total property tax rate levied under General Property Tax less the sum of one-eighth of the operating tax rate levied by the local unit in which the facility is located and one-eighth of the operating tax rate levied by the county in which the facility is located.
ADMINISTRATION:	Same as General Property Tax. Local legislative body (homestead) or State Tax Commission (new or rehabilitated facility) must approve issuance of certificate.
REPORT AND PAYMENT:	Same as General Property Tax.
DISPOSITION:	Same as General Property Tax, except that revenue that is attributable to local school districts and intermediate school districts is credited to the state School Aid Fund.

HYDROPONICS AND AQUACULTURE FACILITIES SPECIFIC TAX

LEGAL CITATION:	M.C.L. 211.981-211.986 ; 2014 PA 512.
YEAR ADOPTED:	2014. Law took effect for taxes levied after December 31, 2014.
BASIS OF TAX:	In lieu of general property taxation for owners of an eligible hydroponics production facility or an eligible aquaculture production facility.
MEASURE OF TAX (BASE):	Taxable value of the eligible hydroponics production facility or eligible aquaculture production facility. A hydroponics production facility is real property used for an indoor agricultural production operation which uses hydroponic techniques or practices for growing plants. To be eligible for the specific tax, a facility must have a production area of at least one acre and must not grow plants that are illegal under federal law. An aquaculture production facility is real property used for an indoor aquaculture production facility using aquaculture techniques or practices for growing aquaculture species. A facility must have a production area of at least 10,000 square feet to be eligible for the specific tax.
RATE:	Annual tax equals 25 percent of the annual property tax payment that the eligible facility would otherwise owe under the general property tax from levies that existed on December 31, 2014 if not exempt, except that the facility also qualifies for the principal residence exemption from taxes levied by local school districts for operating purposes. Tax is adjusted annually for any new millages approved within the local tax collecting unit after December 31, 2014 by adding an amount equal to the newly authorized mills times the taxable value of the eligible facility.
ADMINISTRATION:	State Tax Commission ; local assessors and treasurers.
REPORT AND PAYMENT:	Same as the General Property Tax.
DISPOSITION:	Same as the General Property Tax.

COMMERCIAL FOREST TAX

LEGAL CITATION:	M.C.L. 324.51101-324.51120 ; 1995 PA 57.
YEAR ADOPTED:	1925. The former statute (1925 PA 94) was repealed as of May 24, 1995.
BASIS OF TAX:	In lieu of general property taxation.
MEASURE OF TAX (BASE):	Lands placed in commercial forest reserve (generally, 40 acre minimum). Commercial forest land located in a renaissance zone is exempt from the tax.
RATE:	<i>Specific:</i> \$1.25 per acre until December 31, 2016. Beginning January 1, 2017, and every five years after that date, the tax rate will be increased by five cents per acre. (The state also pays \$1.25 per acre until December 31, 2016. Beginning January 1, 2017, and every five years after that date, the annual state payment will increase by five cents per acre to each county within which acreage is located.) <i>Withdrawal:</i> \$1.00 per acre application fee with a minimum fee of \$200 per application and a maximum of \$1,000 per application, plus per acre penalty. The penalty is a function of the number of acres withdrawn, value of property, average millage rate for all townships in the county where property is located, the number of years, up to seven, in which the withdrawn property had been designated as commercial forestland, and a county-specific (contained in law) factor. The property's value is equal to the previous year's value adjusted for inflation, but not to exceed 5%. For commercial forestland that is subject to a sustainable forest conservation easement, the rate is 15 cents per acre less than the rate for all other commercial forestland. The application fee for withdrawal is \$2.00 per acre with a minimum fee of \$200 per application and a maximum of \$1,000 per application.
ADMINISTRATION:	Department of Natural Resources ; township assessors, township and county treasurers.
REPORT AND PAYMENT:	<i>Specific:</i> with property tax; <i>Withdrawal:</i> with application to withdraw.
DISPOSITION:	Deposited into Private Forestland Enhancement Fund, which is to be used to finance programs that encourage the judicious management of forestlands.

QUALIFIED FOREST TAX

LEGAL CITATION:	M.C.L. 324.51101-324.51120 ; 1995 PA 57.
YEAR ADOPTED:	2013. Initially authorized by 1925 PA 94. Property tax exemptions and recapture tax initially adopted in 2006.
BASIS OF TAX:	Ownership of qualified forest lands that are eligible for certain general property tax benefits, including exemption from school operating millage levies and from the uncapping of taxable value upon sale/transfer of qualified property.
MEASURE OF TAX (BASE):	Taxable value of qualified forest lands where owner has signed affidavit attesting that land will remain in forest production and be managed in accordance with a forest management plan. Generally, 20 acre minimum for land 80% stocked in productive forest; 40 acre minimum for land 50% stocked in productive forest. Maximum of 640 acres per tax collecting unit.
RATE:	<i>Tax/Participation Fee:</i> 2 mills on the taxable value of a qualified parcel. <i>Withdrawal/Recapture Tax:</i> <i>If one or more harvests have occurred on the property before withdrawal:</i> taxable value of the qualified forest property x the number of school operating mills levied net of the 2 mill participation fee x the number of years the property was exempt from school operating mills as qualified forest property (up to 7 years); plus repayment of any property taxes that would have been paid had the taxable value not remained capped due to designation as qualified forest property. <i>If no harvests have occurred on the property before withdrawal:</i> taxable value of the qualified forest property times the number of school operating mills levied times two; plus repayment of any property taxes that would have been paid had the taxable value not remained capped because of designation as qualified forest property.
ADMINISTRATION:	Department of Agriculture and Rural Development; township assessors, township and county treasurers.
REPORT AND PAYMENT:	<i>Specific:</i> annually with property tax; <i>Withdrawal:</i> with application to withdraw.
DISPOSITION:	Deposited into Private Forestland Enhancement Fund, which is to be used to finance the Qualified Forest program and programs that encourage sustainable management of forestlands. Recapture tax proceeds accrued to the general fund until January 1, 2014.

OUTLINE OF THE MICHIGAN TAX SYSTEM

CHANGES IN MICHIGAN TAX LAWS

2015 CHANGES IN MICHIGAN TAX LAWS

TAX ADMINISTRATION

- 2015 PA 10: Amends the Revenue Act to allow the State Treasurer, or a person designated by the State Treasurer, to disclose the address and millage rate of a housing unit that is part of a tax exempt housing project or is subject to a service tax instead of a property tax.
- PA 79: Eliminates the requirement that a taxpayer first pay the disputed tax, including penalties and interest, before filing an appeal with the Court of Claims; increases the amount of time a taxpayer has to file an appeal with the Tax Tribunal from 35 days to 60 days.
- PA 140: Eliminated the requirement that local treasurers maintain a printed copy of tax rolls, if tax rolls are maintained on a computer.

INCOME TAXES

Personal Income Tax

- 2015 PA 161: Allows for an annual deduction of up to \$5000 for a single return and \$10000 for a joint return for net contributions, interest earnings, and qualified withdrawals from a "Achieving a Better Life Experience" savings account, which are designed to assist in paying qualified disability expenses of a designated disabled beneficiary.
- PA 179: Revises the disposition of state personal income tax revenue to allocate \$150 million in income tax revenue to the Michigan Transportation Fund in FY 2018-19, increasing annually to \$600 million in FY 2020-21 and thereafter; also expands eligibility for the homestead property tax credit beginning in tax year 2018 by increasing the maximum amount of the credit, increasing the income threshold at which the credit is phased out, and adjusting provisions used to calculate the credit in general to provide an increased credit to households below the maximum credit limit.
- PA 180: Reduces the individual income tax rate for a tax year beginning on and after tax year 2023 by calculated amount whenever the percentage increase in general fund/general purpose revenue from the prior fiscal year exceeded a positive inflation rate determined by a statutory formula for the same period.

BUSINESS PRIVILEGE TAXES

Michigan Business Tax

- 2015 PA 194: Amends the Michigan Business Tax Act to change the total allowable amount of Michigan Early Stage Venture Investment Act voucher certificates from \$600 million to \$450 million.

SALES-RELATED TAXES

Sales Tax

- 2015 PA 171: Clarifies the definition of drugs for human use, including both prescribed and over-the-counter drugs, which are exempt from the sales tax.

- PA 204: Expands the industrial processing exemption to include the sale of tangible personal property used or consumed in industrial processing activity to produce alcoholic beverages sold at retail by that processor through its own locations.

- PA 251: Provides a sales tax exemption for the sale of data center equipment to the owner or operator of a qualified data center or collocated business for use or consumption in data center operations, or to a person engaged in real estate construction or improvement to the extent equipment is a structural part of a qualified data center; exemption will be effective 1 January 2016 through 31 December 2035, except if fewer than 400 data center jobs are created by 2022 or 1,000 such jobs are created by 2026.

- PA 262: Earmark an amount of sales tax revenue equal to the collection of sales tax imposed at a rate of 2% attributable to retail sales of aviation fuel for distribution to certain aeronautics programs.

- PA 264: Modifies requirements for prepayment of sales tax on fuel from a refiner, pipeline terminal operator, or marine terminal operator. For an in-state purchase or shipment, exempts the requirements for an exporter or supplier for immediate export out of state; for an out-of-state purchase or receipt for shipment into Michigan, the bill would exempt requirements for a refiner or terminal operator if the purchase or receipt were part of a bulk transfer.

Use Tax/State Share

- 2015 PA 124: Increases the amount of revenue that may be generated by the local community stabilization share of the use tax by \$300,000 each year from FY 2015-16 through FY 2018-19.
- PA 172: Provides a use tax exemption for the sale of over-the-counter drugs for human use that are legally dispensed by prescription, in addition to the current exemption for drugs legally prescribed for human use that can be dispensed only by prescription. The bill would treat the definition of "over-the-counter" drugs as the same as in PA 171 which amended the Sales Tax Act.
- PA 205: Expands the industrial processing exemption to include the sale of tangible personal property used or consumed in industrial processing activity to produce alcoholic beverages sold at retail by that processor through its own locations.
- PA 252: Provides a use tax exemption for the storage, use, or consumption of data center equipment to the owner or operator of a qualified data center or collocated business for use or consumption in data center operations, or to a person engaged in real estate construction or improvement to the extent equipment is a structural part of a qualified data center; exemption will be effective 1 January 2016 through 31 December 2035, except if fewer than 400 data center jobs are created by 2022 or 1,000 such jobs are created by 2026.

OUTLINE OF THE MICHIGAN TAX SYSTEM

2015 CHANGES IN MICHIGAN TAX LAWS

- PA 263: Earmark an amount of use tax revenue equal to the collection of use tax imposed at a rate of 2% attributable to retail sales of aviation fuel for distribution to certain aeronautics programs.

PROPERTY TAXES

Real Estate Transfer Tax

- 2015 PA 217: Provides exemption for the sale of a principle residence if its State Equalized Value (SEV) at time of sale was less than or equal to the SEV on the date of purchase and the transaction price was consistent with the property's market value; delete the requirement for a penalty if the state Treasurer determined that the sale was at a value other than a true cash value; and allow a seller or buyer who paid the tax for the seller to request a refund of the tax paid if they believe that the property was eligible for an exemption at the time of transfer.

State Essential Services Assessment Tax

- 2015 PA 120: Revises the definition of acquisition cost used in calculating tax base from the fair market value of property at the time of acquisition by the current owner to the fair market value for the property at the time of acquisition by the first owner, as well as other technical and definitional changes.

- PA 121: Amends the Alternative State Essential Services Assessment Act to change its tax base to match that of PA 120. The Alternative State Essential Services Assessment Act imposes a tax on all eligible personal property that is not subject to the State Essential Services Act.

General Property Tax

- 2015 PA 19: Excludes a specific conveyance of property from the Department of Natural Resources to the property's de facto owner from the definition of "transfer of ownership"; the exclusion would effectively prevent the property's taxable value from being uncapped after being conveyed.
- PA 107: Allows the owner of a parcel of property that contains a combination of agricultural use property and productive forest to apply for a designation as qualified forest property if the combined acreage meets certain requirements; qualified forest property is exempt from school operating taxes.
- PA 119: Makes general revisions to provisions exempting new personal property owned by an eligible business in an eligible district, new eligible manufacturing personal property, and previously existing eligible manufacturing personal property from the property tax.

- PA 119: Makes general revisions to provisions exempting new personal property owned by an eligible business in an eligible district, new eligible manufacturing personal property, and previously existing eligible manufacturing personal property from the property tax.

- PA 190: Specifies that public notice publication requirements related to delinquent taxes and foreclosure of delinquent property would be satisfied by including the notice in an insert in a "notice publication" in certain circumstances.

- PA 202: Amend the General Property Tax Act to require county treasurers to send delinquent tax notices within 60 days before June 1 and September 1 required dates, rather than on those specific dates.

- PA 243: Allow property subject to life estate or lease to be transferred to a relative after either expired or terminated without being considered a "transfer of ownership" if the property was solely residential, preventing the taxable value of that property from being uncapped and established based on market value.

TRANSPORTATION TAXES

Motor Vehicle Registration Fee

- 2015 PA 174: Increases registration taxes for passenger and commercial vehicles by 20% and provides additional registration taxes for hybrid electric and non-hybrid electric vehicles beginning on January 1, 2017.

Gasoline, Diesel Fuel, and Alternative Fuel Taxes

- PA 175: Makes various amendments to PA 51 of 1951 which governs the distribution of transportation funding including the establishment of a Roads Innovation Fund and requirement that the first \$100 million in fuel tax revenue be deposited in the fund annually beginning in FY2017; an increase in the earmark for state debt service; and the establishment of new road warranty requirements for local road agencies.

- PA 176: Increases the gasoline tax from 19 cents per gallon to 26.3 cents per gallon and the diesel fuel tax from 15 cents per gallon to 26.3 cents per gallon beginning January 1, 2017; annually adjusts these rates based on the lesser of 5% or the change in the United States Consumer Price Index beginning in 2022; applies the motor fuel tax to alternative fuels beginning January 1, 2017.

- PA 177: Amends the Streamlined Sales and Use Tax Revenue Equalization Act to impose a tax on alternative fuel and gasoline used in qualified commercial interstate carriers, with the alternative fuel tax to be based on a per-gallon equivalent to motor fuel.

Glossary of Terms

Ad Valorem Tax: A tax computed from the value of a property. Property taxes and part of the Michigan Motor Vehicle Registration Tax are levied based on the value of the property or automobile. Contrasted with these taxes are most special assessments, which are levied based on a measure of how the property is benefited by a capital improvement such as frontage, or the prior method of taxing vehicle registrations, which was the weight of the automobile.

Benefication: The treatment of raw material, such as iron ore, to improve physical or chemical properties.

C Corporation: A corporation that is taxed separately from its owners under the federal income tax. C corporations include all corporations not taxed as S corporations.

Capitation: A payment method for health care services. The physician, hospital, or other health care provider is paid a fixed contracted rate for each member assigned, regardless of the number or nature of services provided. Payment can be adjusted for age, gender, illness, and regional differences.

Captive Insurance Company: An insurance company that insures risks of its parent, affiliated companies, controlled unaffiliated business, or a combination of its parent, affiliated companies, and controlled unaffiliated business.

Carryback: A loss sustained or a portion of a credit not used in a given period that may be deducted from taxable income for a prior period.

Collateral Heirs: Persons who receive the assets of an individual who has died.

Earmarked: The dedication or setting aside of financial resources for a specific use.

Excise Tax: A tax levied on the purchase of individual products and services. Taxes levied on tobacco products, alcohol, beer and wine, and gasoline are examples of excise taxes. Contrasted with these are general sales and use taxes that are levied because a retail sale has occurred rather than because of the product purchased.

Fiscal Year: An accounting period of twelve months at the end of which a government determines its financial condition and the results of its operations and closes its books. The state fiscal year runs from October 1 through September 30 of the following year. Various Michigan local governments have fiscal years that run from January 1 to December 31, April 1 to March 31, July 1 to June 30, or October 1 to September 30.

Grantor Trusts: Trusts where the income is taxed to the party placing the money into the trust or some other person under subpart E of subchapter J of the federal internal revenue code.

Gross Receipts: Entire amount received by a taxpayer from any business activity for direct or indirect gain, benefit or advantage to the taxpayer.

Mill: One one-thousandth of a dollar of assessed value, meaning that one mill is worth \$1 of tax per \$1,000 of assessed value.

Nexus: The amount or level of presence in a state that is required before a company is subject to taxation by that state or sub-geographical area of the state.

Pari-Mutuel: A system of betting in which the amounts wagered are placed in a pool to be shared by those who bet on the winners minus a percentage for the management.

Personal Property: Generally considered to be things that are movable. Personal property includes tangible property (other than real property), intangible property, and inventory.

Real Property: Land, buildings and fixtures on the land, and appurtenances to the land.

Scrip: Any substitute for currency which is not legal tender and is often a form of a credit.

Severance Tax: A tax imposed distinctively on removal of natural products such as oil, gas, other minerals, timber, or fish and measured by value or quantity of products removed or sold.

Specific Tax: Article IX, Section 3, of the Michigan Constitution provides for the uniform general ad valorem taxation of real and tangible personal property not exempt by law. The Constitution permits the legislature to provide for alternative means of taxation of designated real and tangible personal property in lieu of general ad valorem taxation. These taxes levied in lieu of ad valorem taxes are specific taxes.

GLOSSARY OF TERMS (continued)

Subchapter S Corporation: A small business corporation limited to no more than 100 shareholders. Statutorily, it is defined as a corporation electing taxation under subchapter S of chapter 1 of subtitle A of the Internal Revenue Code, sections 1361 to 1379 of the Internal Revenue Code.

Tangible Assets: An item that is capable of being perceived especially by the sense of touch. Contrasted with tangible assets are intangible assets, which include items such as stocks, bonds, and bank holdings. Intangible assets were taxed under the General Property Tax in Michigan until 1939, when the state began collecting the Intangibles Tax. The Intangibles Tax was phased out as of January 1, 1998.

Transient Guest: A person staying less than 30 consecutive days at a particular establishment.

True Cash Value: A cash value of property determined by finding out what one could reasonably expect to get in an “arms length” transaction.

Value Added: Microeconomics explains that for a business endeavor to be successful, revenues will be equal to the cost of labor, the cost of materials, depreciation, and interest as well as allowing some profit for the owners or investors. The “value added” is simply the difference between these revenues and the value of the cost of materials purchased from other firms to produce the product.

Value Added Tax: A broad-based tax levied on that portion the “value added” of the final product of a business that is over and above the value of the materials it purchased. Each business is taxed on the addition to value it contributes to the final product or service. By applying the tax against the added value, multiple taxation of the same business activity is avoided and transactions between businesses are treated the same as those between internally integrated operations within a single firm.

There are two methods of arriving at this tax base for a value-added tax: the deduction method and the addition method. Under the deduction method, the value added by any individual firm is equivalent to its total sales receipts less its costs for materials. Michigan utilized the deduction method when it levied the Business Activities Tax from 1953 to 1967. The addition method bases the tax on the total of the firm’s profits, that is federal taxable income, with the addition of items that reflect the value added by the business that are excluded from federal taxation. These include the cost of labor, depreciation, and interest. This method was used in computing the former Single Business Tax.

Written Instrument: Includes contracts for the sale or exchange of real estate or any interest therein. Includes deeds or instruments of conveyance of real property or any interest therein for consideration.

OUTLINE OF THE MICHIGAN TAX SYSTEM

APPENDIX

The Michigan Business Tax and the Estate Tax have been repealed but remain in effect for certain taxpayers.

OUTLINE OF THE MICHIGAN TAX SYSTEM

LEGAL CITATION: [M.C.L. 208.1101 et seq.](#); 2007 PA 36.

YEAR ADOPTED: 2007. The tax is repealed for nearly all taxpayers effective January 1, 2012. See "Repeal of Michigan Business Tax" below.

Repeal of the Michigan Business Tax

The tax was repealed for most taxpayers effective January 1, 2012. Public Act 39 of 2011 replaced the Michigan Business Tax with a 6% Corporate Income Tax. The special taxes on financial institutions and insurance companies contained in the Michigan Business Tax Act were moved, intact, to the Income Tax Act (which contains the new Corporate Income Tax); however, a number of the credits available to these entities were eliminated. Nearly all of the Michigan Business Tax credits are eliminated under the new Corporate Income Tax. In certain cases, however, taxpayers can elect to continue to file under the Michigan Business Tax to take advantage of specific credits authorized prior to January 1, 2012.

Beginning January 1, 2012, certain taxpayers with "certificated credits" can elect to continue to file under the Michigan Business Tax election, in place of the new Corporate Income Tax, in order to receive their credit. The law requires taxpayers to pay a tax based on the greater of their Michigan Business Tax liability or their liability under the Corporate Income Tax. Taxpayers electing to file under the Michigan Business Tax must continue to do so until the certificated credit and any carryforward from that credit is used up. Generally speaking, "certificated credits" refer to those credits that result from some agreement between the state and the taxpayer in which a voucher or credit certificate is issued. Tax credits preserved under the definition of "certificated credits" include:

- Early Stage Venture Capital Credit;
- Brownfield Redevelopment Credit;
- Michigan Economic Growth Authority Credits (various);
- Film Production Credits;
- Film Infrastructure Credit;
- Historic Preservation Credit;
- Renaissance Zone Credit;
- Farmland Preservation Credit; and
- NASCAR Speedway Infrastructure and Safety Credit;

Under Public Act 39, the Michigan Business Tax Act will be repealed when the Department of Treasury notifies the Secretary of State that all certificated credits have been exhausted. Thus, the Michigan Business Tax was not immediately repealed under Public Act 39 for all taxpayers, although for most taxpayers effectively it was repealed.

BASIS OF TAX: The tax is comprised of two components, an income tax and a modified gross receipts tax. For the income tax component, the basis is a direct tax on business income. For the modified gross receipts component, the basis is the privilege of doing business in Michigan. Both components apply to all businesses with activity in the state and gross receipts exceeding \$350,000 sourced to Michigan. Insurance companies and financial institutions pay separate taxes from the income and gross receipt taxes and are not subject to the \$350,000 filing threshold.

MEASURE OF TAX (BASE): The basis of the business income tax component begins with the federal taxable income of the business entity. The basis of the modified gross receipts tax component is the gross receipts of the business entity, less purchases from other firms. Both taxes are subject to a number of base adjustments and apportionment to Michigan.

Base Adjustments:

Business Income Tax

Federal taxable income adjusted to:

- (1) add back certain federal income tax deductions (e.g., interest income and dividends from other states' obligations; income taxes and Michigan Business Tax paid; net operating loss carryback/forward; royalty, interest, or other expense paid to a person related to the taxpayer by ownership or control for the use of an intangible asset);

MICHIGAN BUSINESS TAX (CONTINUED)

- (2) deduct certain items included in federal taxable income (e.g., dividends and royalties from non-United States entities; interest income from U.S. obligations; net earnings from self-employment; the book-tax difference for qualifying assets);

MICHIGAN BUSINESS TAX (CONTINUED)

Michigan Economic Growth Authority

Public Act 24 of 1995 created the Michigan Economic Growth Authority (MEGA) tax credit to the Single Business Tax to promote economic growth and job creation within the state. The credit was retained under the Michigan Business Tax. The original act has been amended several times since to expand the size and types of businesses eligible to receive the tax credit. The credit amounts are approved by the MEGA board, which is an eight-member body, consisting of four state officials and four gubernatorial appointees. Today, the MEGA tax credit is a refundable credit applied against a firm’s Michigan Business Tax liability. The amount of the tax credit available to a business is based on the number of jobs created and/or retained, the type and location of the business, and whether the firm is expanding or locating in Michigan. The credit amount is based, in part, on the amount of personal income tax associated with new or retained jobs. (Note: The amounts for specific MEGA credits (e.g., polycrystalline silicon, photovoltaic energy) are based on other factors, such as energy consumption and capital investment.) The amount of each tax credit is included in an agreement between the MEGA board and the firm. There are five general types of agreements:

- 1) High-tech or high-wage, where business activity is concentrated in specific, defined sectors, and where the wage level meets certain criteria (high wage);
- 2) Rural, limited to businesses located in counties with a population of 90,000 or less;
- 3) Retention, where existing businesses agree to create a certain number of jobs or make a certain level of capital investment;
- 4) Standard, where a business agrees to create jobs in specific, defined sectors; and
- 5) Combination, consists of components of both a retention tax credit and a standard, rural, or high-tech tax credit.

Tax credits (certificates) are only awarded after fulfillment of the terms of an agreement. Once issued, tax certificates are provided with a firm’s Michigan Business Tax return and applied to its tax liability.

REPORT AND PAYMENT: Due April 30. Estimated quarterly returns and payments due by the 15th day of April, July, October, and January if estimated liability for year is over \$800; due dates adjusted for taxpayers with fiscal year other than calendar year. A taxpayer, other than an insurance company or financial institution, with annualized apportioned gross receipts of less than \$350,000 need not file a return.

DISPOSITION: General Fund. Prior to Fiscal Year 2012, the School Aid Fund received a formula-based allocation equal to the previous year’s allocation adjusted for growth in the United States Consumer Price Index during the previous year. If MBT cash collections in a fiscal year exceed a specified amount, 60% of the excess shall be refunded to taxpayers.

2014-15 COLLECTIONS: (\$633,609,526)

LEGAL CITATION:	M.C.L. 205.201 et seq. ; 1899 PA 188.
YEAR ADOPTED:	1899 (referred to as Inheritance Tax until amended by 1993 PA 54.)
BASIS OF TAX:	Privilege of transferring an interest in the property of a decedent.
MEASURE OF TAX (BASE):	Gross estate as determined under federal internal revenue code.

Estate Tax Elimination

Michigan's Estate Tax is equal to the maximum allowable federal state death tax credit. In 2001, federal tax reforms phased out the allowable state death tax credit over a four-year period beginning in 2002. As a result, there is no state death tax credit for dates of death after December 31, 2004. The credit was set to be reinstated in 2013, but the elimination was made permanent by the American Taxpayer Relief Act of 2012. The State of Michigan has taken no action to offset the federal change and therefore the state Estate Tax is no longer effective. State Estate Tax revenues, which approached \$200 million in FY2001, will not be collected by the state in the future unless the federal death tax credit is resumed or the state decouples its estate tax rate from the federal credit.

RATE:	Tax imposed up to maximum allowable federal credit for state inheritance taxes paid.
ADMINISTRATION:	Department of Treasury.
REPORT AND PAYMENT:	Due by same date as federal estate tax.
DISPOSITION:	General Fund.
