The Citizens Research Council of Michigan wishes to acknowledge the generous assistance rendered by Michigan Department of Treasury staff in preparation of this document. However, any errors or omissions are solely the responsibility of the Citizens Research Council. (Data used to prepare these charts were drawn from reports of the Michigan Department of Treasury, the Michigan Unemployment Insurance Agency, and the State Tax Commission from various years.)
While 2016 was filled with several fairly minor changes to the state tax code (such as exempting the costs of recycling fees from the Sales and Use Taxes), 2017 saw fewer laws passed that changed the tax landscape, but a handful of the bills enacted packed a major punch. The most notable changes included the creation of two large tax incentive programs designed to spur economic development; these new programs signal a shift in tax policy.

Previously, tax incentive programs were a popular economic development tool for several former administrations, but their value was viewed differently by Governor Rick Snyder when he took office in 2011. The new Governor criticized their use as an exercise in government trying to pick “winners” and “losers” rather than making the overall business climate conducive for all firms. Additionally, the Governor was concerned about the major budgetary effects that a number of these programs were having.

**Déjà vu: Major new tax credit incentives approved**

A major component of the 2011 business tax overhaul initiated by Governor Snyder included eliminating the much-maligned Michigan Business Tax (MBT) and replacing it with a 6 percent Corporate Income Tax (CIT). The new Corporate Income Tax limited the use of business tax credits. Specifically, the tax rewrite allowed firms to continue to take advantage of MBT credits issued prior to 2012, but no new credits would be allowed after 2011 for firms subject to the new CIT. The restriction applied to various Michigan Economic Growth Authority (MEGA), brownfield redevelopment, renaissance zone, film production, battery, and historic preservation credits, as well as a handful of smaller credits claimed against the MBT.

A key motivation behind eliminating the various credits was making the tax system “fairer” and getting the state out of the business of picking “winners” and “losers.” There also was concerns over the fiscal costs associated with many of the credits and the inability of the legislature to control the tax expenditure side of the state budget. While the tax rewrite got the state out of the tax credit business (at least new ones), it was still on the hook for many legacy credits (those issued prior to 2011) and their associated costs. For example, the existing MEGA credits cost the state more than $500 million annually, even though the last agreements were signed in 2011.

In place of issuing credits to incentivize business and economic development, state policymakers enacted a number of grant and other financial assistance programs. These programs, such as the Michigan Business Development Program (MBDP) provided the state with greater control over what business incentives were handed out. In the case of the MBDP, the Legislature annually appropriates funds to support grants, loans, and other forms of assistance.

But in 2017, state policymakers reversed course on the use of tax incentives. The state created a handful of new major tax incentive programs to encourage business and economic development. Unlike their predecessors, these programs have hard caps on the total value these agreements can be worth.

The first example of this is a new series of incentives for brownfield sites outlined in Public Act (PA) 47. Under the Transformational Brownfield Plan, the Michigan Strategic Fund would be able to enter into agreements with localities to provide tax capture agreements for brownfield redevelopment for commercial or residential use. The tax capture revenue includes collections during the construction period as well as withholding and income tax revenue from development sites. These agreements are capped at $1 billion over the life of the program.

The second major incentive program was the Good Jobs for Michigan Program, created by PA 110. It provides incentives for businesses to create new well-paying jobs in the state. Under the plan, businesses would be allowed to capture income tax withholdings from certified new employees. The total value of incentives a business would be eligible for depends upon the quantity and average salary of the new jobs: businesses would receive up to 100 percent of withholdings if a business creates 3,000 jobs at the prosperity region average or 250 jobs at 125 percent
of the average and up to 50 percent if a business creates 500 jobs at the average. The total of these agreements is capped at $200 million over the life of the program.

Federal tax changes

In late 2017, Congress passed the Tax Cuts and Jobs Act (TCJA), which overhauled the federal tax code. The TCJA altered the tax code in many material ways, including changing definitions for types of income and removing the personal exemption for federal income tax purposes. Because many state tax codes rely, to varying degrees, on definitions contained in federal law, the tax code changes had the effect of altering various state tax systems.

Some issues required immediate legislative action. The TCJA’s elimination of the personal exemption left Michigan in a bind, as the state exemption was tied to the federal exemption. Governor Snyder and the Legislature agreed that something needed to be done to restore the exemption. Ultimately, they came to an agreement to restore the personal exemption, and eventually increase the value of the exemption to $4,900 in 2021.

Many other adjustments are waiting for clarification from the IRS; but there are a number of possible changes. For example, a recent estimate by the Council on State Taxation and the State Tax Research Institute estimated that the federal reform of income taxes could increase state corporate income taxes by an average of 12 percent.1 While there are seemingly few major implications for Michigan’s tax code, it will be interesting to see how the federal changes alter Michigan tax revenue down the road.

Looking forward and backward

Governor Snyder is serving his final year as the state’s chief executive. In 2018, Michigan voters will elect a new governor along with a fresh batch of state lawmakers. Term limits will force more than 70 percent of Senators and more than 20 percent of Representatives from the Michigan Legislature. Although it is too early to know the direction tax policy will go in 2019 under a new governor, we can see the primary thematic changes to Michigan’s tax landscape during the Snyder Administration. The first is a shift towards tax simplification, seen in the elimination of the state’s unique and extremely complicated Michigan Business Tax in 2011 and adoption of the flat-rate Corporate Income Tax. On the individual tax side, the Personal Income Tax was simplified by limiting, restructuring, or eliminating various credits, exemptions, and deductions.

Second, and related to the first theme, is a redistribution of the tax burden in the state in the hopes of spurring economic growth and employment. The tax overhaul in 2011, while effectively revenue-neutral from an overall tax receipt perspective, resulted in a net tax cut to businesses and a net tax increase for individuals. Similarly, the personal property tax reforms enacted in 2012 and 2014, which, among other things, phased in exemptions on manufacturing-related property and provided small taxpayers with relief, will decrease the overall business tax burden.

Third, after a number of failed attempts, transportation taxes were increased effective 2017. Increases in state motor fuel tax rates along with high vehicle registration taxes were part of a $1.2 billion funding package approved in 2016 to address part of Michigan’s state and local road infrastructure needs.

OUTLINE OF THE MICHIGAN TAX SYSTEM

Introduction
This outline is designed to be a ready reference to the 64 taxes levied by state and local government in Michigan. It contains information on each of the 40 state and 24 local taxes effective as of the publication date, including:

— A description of each of the 64 state and local taxes and historical collections from major taxes (pages 1 to 76).
— A summary of major tax law enacted by the state legislature between January 1, 2017, and March 31, 2018 (pages 77 to 80).
— A table of tax collections for fiscal years 2013-2016 (page 85).

Taxes Defined
A tax is an enforced financial charge exacted by a government for the support of its various functions. State and local governments in Michigan levy several types of taxes. This report categorizes Michigan taxes as follows:

• **Income taxes** are levied based on income earnings. The state and local personal income taxes are based on federal adjusted gross income. Non-resident local income taxes are based on earnings from within the taxing cities. In 2011, the state enacted a 6 percent Corporate Income Tax levied only on C corporations. Only the state and city governments are authorized to levy income taxes in Michigan.

• **Business privilege taxes** are levied on firms that do business in Michigan or, in some cases, engage in a specific line of business. With the Single Business Tax, in effect from 1975 to 2007, and the Michigan Business Tax, in effect from 2007 to 2011, Michigan businesses were subject to a value-added tax with the SBT and to a hybrid of two individual taxes; a business income tax and a modified gross receipts tax. The Michigan Business Tax was eliminated effective January 1, 2012 for most business firms, and replaced with the Corporate Income Tax. State government is authorized to levy eleven types of business privilege taxes in Michigan. Counties in Michigan are authorized to levy one type of business privilege tax (9-1-1 charge) and the only municipal government authorized to levy this type of tax is the City of Detroit, which can levy a casino gaming tax on the three Detroit casinos (a complement to the state-level tax levied on the casinos).

• **Sales-related taxes** are levied in several forms in Michigan. The Sales and Use taxes are levied on the retail sale or use of tangible personal property. Until recently, only the state government was authorized to levy sales and use taxes in Michigan. At the August 2014 election, voters authorized a statewide special authority to levy a “local” use tax. (See box on page 30). Excise or selective sales taxes are levied, like sales and use taxes, on the purchase of individual products and services. In addition to the excise taxes included under the sales-related taxes, motor fuel taxes are listed separately under transportation taxes because they are, in large measure, user charges. State government is authorized to levy nine types of sales-related taxes in Michigan. Counties are authorized to levy three types of sales-related taxes, and the City of Detroit is also authorized to levy one sales-related tax.

• **Property taxes** are levied based on the value of property. In addition to the taxation of real and personal property that typically falls under the local General Property Tax, local governments are authorized to levy three other ad valorem taxes (unit-wide special assessments, Low Grade Iron Ore Tax, and the County Real Estate Transfer Tax) and the state government is authorized to levy five ad valorem taxes (State Education Tax, Utility Property Tax, State Real Estate Transfer Tax, State Essential Services Assessment Tax, and Motor Vehicle Registration Tax). Motor vehicle registration taxes are not typically associated with property taxes; however, because Michigan taxes personal passenger vehicles based on their value, the Motor Vehicle Registration Tax qualifies as a property tax. Michigan local governments are authorized to levy eleven different types of specific taxes in lieu of ad valorem property taxes, several of which were created as economic development tools to reduce the tax burden on individual taxpayers.

• **Transportation taxes** are sales-related and property taxes levied on items used for transportation purposes. Each of these taxes is
When is a charge considered a tax?

This question is significant in Michigan with the limitations placed on taxation in the state Constitution. Specifically, amendments to the state Constitution adopted in 1978 (commonly referred to as the “Headlee Amendment”) directly affect the level of state taxes and means of collecting local taxes. As part of a national taxpayer revolt, the Headlee Amendment was adopted by the voters of Michigan to limit legislative expansion of requirements placed on local government, to control increases in government spending, and to limit taxes both at the local and state level.

State vs. Local Taxes. One ramification of the Headlee Amendment is the differentiation of state and local taxes. Section 26, Article IX, of the 1963 Constitution placed a limit on the growth of total state revenues.

There is hereby established a limit on the total amount of taxes which may be imposed by the legislature in any fiscal year on the taxpayers of this state. . . . The legislature shall not impose taxes of any kind which, together with all other revenues of the state, federal aid excluded, exceed the revenue limit established in this section. . . .

For the purposes of this document, in addition to the categorization by tax type, we have divided taxes according to which level of government actually levies the tax, recognizing that all taxing authority ultimately comes from the state. If the levy of a tax requires local action, it is considered a local tax. All other taxes are considered state taxes. State taxes are most directly affected by this limitation. Specifically, the question of which taxes are state-levied is significant in calculating the constitutionally-established ratio noted above. While local taxes are not affected by this limitation directly, the drafters of the Headlee Amendment considered the possibility that one means of evading this restriction would be to pass functions to local government. Section 25 of Article IX provided for such a possibility by providing that

. . . The state is prohibited from requiring any new or expanded activities by local governments without full state financing, from reducing the proportion of state spending in the form of aid to local governments, or from shifting the tax burden to local government. . . .

Some taxes are very clearly state taxes. These taxes are levied on a statewide basis, uniform across all taxpayers, and the revenues from these taxes are deposited into state funds to finance state government activities. For other taxes the distinction is not so clear. Some taxes are state taxes levied for local purposes. The Airport Parking Excise Tax for instance, is levied only on the parking facilities in and around the Detroit Metropolitan Wayne County Airport. The majority of the revenues are used to support primarily local functions, such as general assistance to the City of Romulus and indigent health care in Wayne County. Even though the majority of the revenues are used for seemingly local purposes, this tax is considered a state tax.

Other taxes are state taxes collected by local government. Cities and townships are responsible for collecting property taxes for all units that geographically overlap their boundaries, including counties, local school districts, intermediate school districts, and special authorities. With enactment of the State Education Tax as part of Proposal A of 1994, cities and townships became responsible for collection of that tax as well. Although taxpayers pay this tax to local units of government, it is levied uniformly across the state, revenues are transferred to a state account, and it is dedicated to the state School Aid Fund, making it a state tax.

Taxes vs. Fees. Because of the number and variety of local units of government, it is not practical to place an overall limit on the total revenue of local government in a state. Instead, the Headlee Amendment attempted to limit local tax revenues in two different ways. First, it attempted to control the property tax burden, the primary means of funding local government in Michigan, by limiting net growth in the tax yield on a unit-wide basis. Second, and more significantly, it required voter approval for the levy of new local taxes or increasing the rate of existing local taxes. Section 31 of Article IX provides
Units of Local Government are hereby prohibited from levying any tax not authorized by law or charter when this section is ratified or from increasing the rate of an existing tax above that rate authorized by law or charter when this section is ratified, without the approval of a majority of the qualified electors of that unit of Local Government voting thereon. . .

This provision has come under some scrutiny over the question of taxes versus fees. In a 1998 state Supreme Court decision, *Bolt v City of Lansing*, the court laid out three criteria to distinguish a fee from a tax:

1. User fees must serve a regulatory purpose rather than a revenue-raising purpose;
2. User fees must be proportionate to the necessary costs of the service or commodity, and imposed on those benefiting from the right/service/improvement supported by the fee; and
3. User fees are voluntary in nature.

Contrasted with fees are taxes levied by government. By implication, a tax:

1. Is to be levied to raise revenue for the general operation of government;
2. Is to be levied to benefit the general public; and
3. Is compulsory in nature.

A fee may be thought of as a charge that permits an individual or other entity access to a government service or to a privilege granted by government, whereas a tax simply underwrites the provision of governmental services available to anyone, whether the tax has been paid or not. For example, a toll on a bridge or highway permits a specific individual access to the bridge or highway and is, therefore, a fee. On the other hand, a gasoline tax, which also pays for bridges and highways, confers no special privilege and is, therefore, a tax.

OUTLINE OF THE MICHIGAN TAX SYSTEM

PERSONAL INCOME TAX

LEGAL CITATION: M.C.L. 206.1 et seq.; 1967 PA 281; Section 7, Article IX, state Constitution.

YEAR ADOPTED: 1967

BASIS OF TAX: A direct tax on income.

MEASURE OF TAX (BASE): Federal adjusted gross income of individuals, estates and trusts, with certain adjustments.

Additions include all or part of (1) interest income from state/local obligations other than Michigan state and local income tax paid, and certain other exclusions from federal adjusted gross income, and (2) refunds received under the Michigan Education Trust Act for a terminated advance tuition payment contract.

Subtractions include personal and dependency exemptions. The exemption is $4,000 in 2017, $4,050 in 2018, $4,400 in 2019, $4,750 in 2020, and $4,900 in 2021, with exemptions beyond 2021 indexed to inflation from the 2012 base exemption of $3,700 plus $600, and special exemptions for totally or permanently disabled, and disabled veterans. Also excluded are all or part of:

1. interest income from federal government obligations;
2. armed forces compensation;
3. railroad pension;
4. National Guard pension or retirement benefits;
5. Social Security;
6. retirement benefits (public and private), based on the taxpayer's birth year:

Taxpayer Born Before 1946*

Public pensions are exempt.

Private pensions, subtract up to $50,509 for single and $101,019 for joint return (based on 2011 amount indexed to inflation).

Subtract up to $11,259 for single and $22,518 for a joint return (based on 2011 amount indexed to inflation) of interest, dividends, or to capital gains earned by a senior citizen: maximum deduction allowed is reduced by pension deduction claimed.

Taxpayer Born 1946 to 1952*

Before taxpayer reaches 67:

For public and private pensions, subtract up to $20,000 for single and $40,000 for joint return.

After taxpayer reaches 67:

Can take standard deduction from all income up to $20,000 for single and $40,000 for joint return.** No specific pension or retirement benefit deduction. Standard deduction is reduced by any military or railroad retirement benefits.

Taxpayer Born After 1952*

Before taxpayer reaches 67:

Public and private pensions are not exempt under most circumstances.***

After taxpayer reaches 67:

Taxpayer can choose:

A) Take an exemption against all income up to $20,000 for single and $40,000 for joint return. However, Social Security, military pension, and railroad pension income are subject to tax. Also, taxpayer cannot claim personal exemption.

B) Social Security, military pension, and railroad pension are exempt from tax; taxpayer may also claim personal exemption.

* For married couples filing jointly, the age of the oldest spouse determines the age bracket into which the couple falls.

** Limits are increased to $35,000 single/$55,000 joint for persons receiving benefits from governmental agency not covered by Social Security.

*** Limits are $15,000 single/$30,000 joint if both spouses earned pension income from a government job not covered by Social Security, except those retired before 2012, who can claim $35,000 single/$55,000 joint.

(7) advance tuition payments made under the Michigan Education Trust Act;
(8) for taxpayer born before 1946, up to $11,259 ($22,518 for a joint return) of interest, dividends, or capital gains earned in 2017; maximum deduction is indexed for inflation and is reduced by pension deduction claimed (see table above);
(9) claims for recovered assets received by Holocaust victims;

(10) educational savings account and “Achieving a Better Life Experience” (ABLE) savings account contributions up to $5,000 per education savings account ($10,000 for a joint return) and interest earned on those contributions;

(11) gain from an initial equity investment made before 2010 of at least $100,000, if the investment plus the gain, or a portion of it, is reinvested in an equity investment in a “qualified business”. The deduction is available after 2006 and the initial equity investment has to be made before 2010.

Credits against tax liability as follows:

(1) **Homestead property taxes.** Limited to homesteads (excluding unoccupied agricultural properties) with a taxable value of $135,000 or less and the maximum credit is $1,200 (Note: maximum credit increases to $1,500 in tax year 2018):
   (a) for taxpayers other than senior citizens – 60% of taxes in excess of 3.5% (decreasing to 3.2% in tax year 2018) of total household resources if total household resources are $41,000 ($51,000 starting in tax year 2018) or less; credit reduced by 10% for each $1,000 increment of total household resources (eliminated when the total household resources are $50,000 ($60,000 starting in tax year 2018).
   (b) for senior citizens – 100% of taxes in excess of up to 3.5% (decreasing to 3.2% in tax year 2018) of total household resources if total household resources are $21,000 or less; credit phases down by 4 percentage points for each $1,000 increment of household resources until the credit reaches 60% of taxes in excess of 3.5% of total household resources ($30,000 total household resources); credit is reduced further for total household resources above $41,000 (10% for each $1,000 increment of total household resource) and is eliminated when total household resources are $50,000;
   (c) for veterans, surviving spouses and blind individuals – credit based on taxable value allowance of between $2,500 and $4,500 depending on taxpayer’s status (e.g. veteran, spouse, blind); allowance divided by homestead’s taxable value to determine percent of tax relief; calculated percentage is multiplied by property taxes assessed to determine credit of up to $1,200; credit is reduced further for total household resources above $41,000 (10% for each $1,000 increment of total household resource) and is eliminated when total household resources are $50,000;

(2) **Property taxes on rented homesteads.** Equal to 20% (increasing to 23% in tax year 2018) of gross rent paid (10% in certain subsidized housing projects). Credit reduced by proportion of income from welfare. Credit reduced by 10% at $41,000 income and by another 10% for each $1,000 increment above $41,000.

(3) **Farmland property taxes.** Available to farmers who have entered into an agreement not to develop their land for another use for a minimum of 10 years. For individuals, partnerships, S corporations and grantor trusts, credit is 100% of taxes in excess of 3.5% of household income.

(4) **Earned income.** Equal to 6% of the Federal Earned Income Tax Credit (EITC). To qualify for the Federal EITC, taxpayers must meet certain requirements and file a tax return, even if they did not earn enough money to be obligated to file a return.

(5) **Income tax paid to another state.**

(6) **Home heating costs for low-income families.** Credit varies with household income, number of exemptions, and heating costs. Excludes dependent full-time students.

**RATE:**
4.25%. Beginning in tax year 2023, the rate would be reduced by a calculated amount in any fiscal year for which cumulative general fund/general purpose revenue growth between FY2021 and the most recently completed fiscal year exceeded a measurement of cumulative U.S. Consumer Price Index inflation over the same period.

N 2007 PA 94 — Increased tax rate to 4.35% effective October 1, 2007. Beginning October 1, 2011, and each October 1st after 2011, the rate is reduced 0.1% until the rate reaches 3.95%. On October 1, 2015, the rate is 3.9%.
O 2011 PA 38 — Maintained the rate at 4.35% until January 1, 2013. Under 2007 PA 94 (see N above) rate was scheduled to be reduced to 4.25% on October 1, 2011. The rate was reduced to 4.25% effective October 1, 2012 by PA 223 of 2012. Set the value of the personal exemption at $3,700 2012 dollars beginning in 2012.
P 2015 PA 140 — Triggered future tax rate reductions, beginning in tax year 2023, calculated in any fiscal year for which cumulative general fund/general purpose revenue growth between FY2021 and the most recently completed fiscal year exceeded a measurement of inflation over the same period.
Q 2018 PA 38 — Decoupled the personal exemption from the Internal Revenue Code and increased the value of the personal exemption. The exemption will be $4,050 for Tax Year 2018, $4,400 for TY2019, $4,750 for TY2020, and $4,900 for TY2021. After 2021, the exemption will be the sum of the current formula ($3,700 2012 dollars) plus $600.
OUTLINE OF THE MICHIGAN TAX SYSTEM

CORPORATE INCOME TAX

LEGAL CITATION: M.C.L. 206.601 et seq.; 2011 PA 39; Section 7, Article IX, state Constitution.

BASIS OF TAX: The tax is comprised of three distinct taxes:

- A corporate income tax on C corporations (and entities taxed as C corporations for federal income tax purposes). The income tax is a direct tax on business income;
- A premiums tax on insurance companies. The premiums tax is a direct tax on premiums written on property or risk located or residing in Michigan; and
- A franchise tax on financial institutions. The franchise tax is a direct tax on apportioned net capital.

Each tax applies to businesses with activity in the state and gross receipts exceeding $350,000 sourced to Michigan.

MEASURE OF TAX (BASE): Corporate Income Tax

Business income for federal income tax purposes, subject to certain adjustments both before and after allocation or apportionment to Michigan. Federal taxable income is adjusted to:

1. Add back certain federal income tax deductions (e.g., interest income and dividends from other states’ obligations; income taxes paid; net operating loss carryback/forward; royalty, interest, or other expense paid to a person related to the taxpayer by ownership or control for the use of an intangible asset);
2. Deduct certain items included in federal taxable income (e.g., dividends and royalties from non-U.S. entities; interest income from U.S. obligations; income and expenses from producing oil and gas);
3. Deduct any business loss.

Apportionment: For corporations with activity entirely within Michigan, the tax base is allocated entirely to Michigan. For corporations with multi-state activity, the tax base is allocated in proportion to sales in Michigan.

Credit: The alternative small business tax credit is available to corporations other than financial institutions and insurance companies with gross receipts that do not exceed $20 million and with adjusted business income, minus losses, that does not exceed $1.364 million (adjusted annually for inflation). Eligible corporations pay an alternative 1.8% tax rate on adjusted business income.

Premiums Tax

Gross direct premiums written on property or risk located or residing in Michigan, excluding:

1. Premiums on policies not taken;
2. Returned premiums on canceled policies;
3. Receipts from the sale of annuities;
4. Receipts on reinsurance premiums if the tax was paid on the original premium; and
5. The first $190 million of disability insurance premium, other than credit insurance and disability income insurance premiums.
**CORPORATE INCOME TAX (CONTINUED)**

**Franchise Tax**
The financial institution’s net capital after allocation or apportionment to Michigan. Net capital is averaged over a five-year period and excludes goodwill and the average daily value of obligations of the United States and Michigan.

A 1953 PA 150 — **Business Activity Tax** established at rate of 2 mills on gross receipts less certain taxes, purchases, interest, rent, and reasonable depreciation on real property.

B 1967 PA 281 — **Corporate Income Tax** established at 7.8% replacing the Business Activity Tax.

C 1975 PA 228 — **Single Business Tax** established at 2.35% replacing eight previous taxes including a corporate and financial institutions income tax, an annual corporation franchise fee, the business portion of the intangibles tax, the property tax on inventories, and various privilege taxes on savings and loans and domestic insurance companies.

D 1991 PA 77 — Apportionment of SBT tax base changed for tax years 1991 and 1992, so that sales account for 40%, and property and payroll account for 30% each; and, for tax years after 1992, sales account for 50%, and property and payroll account for 25% each; modified capital acquisition deduction (CAD) to permit deduction of all capital expenditures, including depreciable personal property, regardless of location, apportioned like tax base; increased gross receipts filing exemption to $60,000 for tax year 1991 and $100,000 for subsequent years.

E 1992 PA 98 — Reduced, effective with tax year 1992, the small business alternative tax to 3%.

F 1994 PA 245 — Reduced the rate of the small business alternative tax from 3% to 2% of adjusted business income.

PA 246 — Increased the gross receipts filing threshold to $250,000 for tax years beginning after December 31, 1994.

PA 247 — Reduced SBT tax rate to 2.3% effective October 1, 1994.

G 1995 PAs 282 & 283 — Apportionment of tax base changed for tax years 1997 and 1998, so that sales account for 80%, and property and payroll account for 10% each; for tax years after 1999, sales account for 90%, and property and payroll account for 5% each; CAD limited to Michigan investments multiplied by apportionment factor.

H 1999 PA 115 — Beginning January 1, 1999 the SBT rate is reduced by 0.1% per year until the tax is eliminated. The Insurance Tax rate is reduced proportionately to the SBT rate. The CAD was replaced with an investment tax credit, for tax years beginning after December 31, 1999.

J 2007 PA 36 — **Michigan Business Tax** Act, consisting of an income tax (4.95% rate) and a modified gross receipts tax (0.8% rate), enacted to replace SBT as the primary business privilege tax in the state effective January 1, 2008. The MBT also replaced some personal property taxes.

K 2011 PA 39 — **Corporate Income Tax**, consisting of an income tax (6.0% rate), premiums tax (1.25% rate), and franchise tax (0.29% rate), enacted to replace MBT as the primary business privilege tax in the state effective January 1, 2012.

OUTLINE OF THE MICHIGAN TAX SYSTEM

UNIFORM CITY INCOME TAX

LEGAL CITATION: M.C.L. 141.501 et seq.; 1964 PA 284; Section 7, Article IX, state Constitution.

YEAR ADOPTED: Uniform state law adopted in 1964. Individual cities adopted by ordinance in various years, subject to voter approval.

BASIS OF TAX: A direct tax on income (residents); a direct tax on earnings related to work or business activities conducted in the city (nonresidents); a direct tax on federal taxable income (corporations).

MEASURE OF TAX (BASE): (1) Compensation, net profits, investments and other income of city residents; (2) Income earned in the city by nonresidents; (3) Corporate income earned in the city (allocation based on property, sales, payroll). Personal exemption allowed by the Michigan Income Tax Act, except that by ordinance a city may adopt an exemption of not less than $600. A resident is allowed credit for income taxes paid to another city as a nonresident. A resident may deduct certain income earned, capital gains, and lottery winnings received while a resident of a renaissance zone and a business may deduct income attributable to business activity in a renaissance zone.

RATE: Generally, 1% on residents and corporations; 0.5% on income of nonresidents earned in imposing city. The nonresident rate cannot exceed one-half of the resident rate.

The city council in cities over 600,000 (Detroit) may impose rates of up to 2.4% on residents, 2.0% on corporations, 1.2% on nonresidents. Maximum rates may be further reduced until the rates reach 2.2% and 1.1% respectively (see box). (The rate appearing on income tax forms each calendar year is the average rate from before and after July 1 of that year.)

Detroit Income Tax Rate Revisions

Public Act 394 of 2012 amended the City Income Tax Act to freeze a scheduled rollback of income tax rates for resident and nonresident taxpayers in the City of Detroit. The act established a new maximum rate of 2.4% for residents and 1.2% for nonresidents effective in the 2013 tax year. The act was part of a legislative package that authorized the creation of a public lighting authority within the city to service and operate the municipally owned lighting system. The act provided that if such an authority is created (which the Detroit City Council did vote to approve in 2013), the revenue collected from 0.2% of the rate levied on residents and 0.1% of the rate levied on nonresidents is dedicated to the city's police department budget.

Beginning in the tax year immediately following the year in which all bonds and indebtedness issued by the new lighting authority have been fully paid, the maximum rates will be reduced to 2.2% for residents and 1.1% for nonresidents.

A city that levied an income tax and where more than 22 mills had been levied in the city for city purposes and at least 65 mills for all purposes during the prior calendar year was allowed to impose rates of up to 2% on residents and corporations and 1% on nonresidents if approved by voters before November 15, 1988. This provision applied to Highland Park.

Cities that levied an income tax before March 30, 1989 and with (a) populations between 140,000 and 600,000 (Grand Rapids); or (b) populations between 65,000 and 100,000 in a county with a population below 300,000 (Saginaw) may increase the tax rate to not more than 1.5 percent on residents and corporations and 0.75 percent on nonresidents if approved by voters.
### Uniform City Income Tax (Continued)

**ADMINISTRATION:** Administrator designated by the city. Collected by city treasurer.

**REPORT AND PAYMENT:** Due April 30 (when tax year ends December 31). Quarterly estimates and payments due April 30, June 30, September 30, and January 31. Withholding required.

**DISPOSITION:** General fund of the city. A portion of Detroit’s city income tax revenue is earmarked to the city police budget (see box on “Detroit Income Tax Rate Revisions”).

UNEMPLOYMENT INSURANCE TAX

**LEGAL CITATION:** M.C.L. 421.1 et seq.; 1936 PA 1 (Extra Session).

**YEAR ADOPTED:** 1936

**BASIS OF TAX:** To provide for an Unemployment Insurance Fund.

**MEASURE OF TAX (BASE):** Wages paid per covered employee up to a limit of $9,500 or wages equal to the federal unemployment tax base if higher; limit lowered to $9,000 for nondelinquent employers if Unemployment Compensation Fund balance reaches $2.5 billion.

**RATE:** Basic rate is 2.7% on new employers for their first two years of liability, except for construction contractors who pay the average construction contractor rate. Rate for fully experienced employers (after 4 years of experience) may vary from 0.06% to 10.3%, depending on the employer’s experience rating and solvency of the fund. Total tax rate calculation is based on the following components:

- **Nonchargeable Benefit Component (NBC):** a rate of 0.06-1% to cover certain benefit costs not directly charged to an employer account (e.g., employer is out of business). These costs are pooled across all employers. The 1% standard rate is charged to employers with recent claims filed against their accounts. If an employer’s CBC rate (see below) is less than 0.2%, that employer’s NBC rate falls to 0.5%. If the employer has not had any benefit charges over a number of consecutive years, the NBC rate can be further reduced in accordance with the following schedule:

- **Experience Account**, which has two parts:
  
  1. **Chargeable Benefit Component (CBC):** a rate of 0-6.3% measured by the “benefit ratio” (benefits charged to employer’s account in the last 3 years as a percent of employer’s taxable wages in those years).
  
  2. **Account Building Component (ABC):** a rate of 0-3% based on a “reserve ratio” deficiency (amount by which an employer’s actual reserve falls below 3.75% of total annual payroll). If overall trust fund balance is at least 1.875% of all contributing employers’ payrolls, employer’s deficiency, as defined above, is multiplied by 0.25, not to exceed a 2% rate. Otherwise, employer’s deficiency is multiplied by 0.5, not to exceed a 3% rate.

If overall trust fund balance is 1.2% of all contributing employer’s payrolls, all fully experience-rated employers (after 2 years of experience) receive a rate reduction of the greater of 10% or 0.1 percentage points in the rate determined by components (a) and (b) above.

- **Solvency Tax:** a rate of 0-2% based on a “reserve ratio” deficiency, imposed only on “negative balance” employers (those with deficit in their experience account as of the prior June 30) who have been contributing employers for five or more years; solvency tax imposed only during years when the fund has interest-bearing loans outstanding; tax is not currently imposed.

**ADMINISTRATION:** Michigan Department of Licensing and Regulatory Affairs, Unemployment Insurance Agency.

**REPORT AND PAYMENT:** By Unemployment Insurance Agency regulation — currently quarterly.

**DISPOSITION:** Deposited with UIA for transfer to U.S. Treasury to establish pool for payment of unemployment insurance benefits, except for solvency tax which goes to contingency fund in state treasury.

QUALITY ASSURANCE ASSESSMENT FEES

LEGAL CITATION: M.C.L. 333.20161, M.C.L. 400.109f; 2002 PA 303, 304, & 562; 2005 PA 83

YEAR ADOPTED: 2002

BASIS OF TAX: Privilege of participating in the Medicaid program.

MEASURE OF TAX (BASE): The tax base varies by type of provider. For hospitals, the number of licensed beds is assessed a uniform charge per bed. For nursing and hospital long-term care units, the assessment is based on the total number of patient days of care each nursing and long-term care unit provided to non-Medicare patients during the preceding year.

Assessments are charged by the state on hospitals and on nursing and long-term care facilities. The resulting revenue collections, combined with federal matching revenues, are used to increase the rates paid by the state to these providers of services to patients participating in the Medicaid program.

RATE: The rates for the providers are as follows:

- For hospitals, a fixed or variable rate that generates funds not more than the maximum allowable under federal matching requirements.
- For nursing and hospital long-term care units, an amount resulting in not more than 6% of total industry revenues.

ADMINISTRATION: Michigan Department of Health and Human Services.

REPORT AND PAYMENT: The Department of Health and Human Services sends each provider a statement of the amounts owed for the particular assessment. Payments received are deposited in the State Treasury.

DISPOSITION: The assessment revenues finance part of the Medicaid program and are restricted for that purpose. This revenue is used to capture additional Federal funding for the Medicaid program and offset the amount of General Fund resources allocated to the program.

2016-17 COLLECTIONS: $1,136,099,000

Medicaid Managed Care Organizations

The State of Michigan has made many attempts to craft a dedicated funding source to provide the match of federal funds for the Medicaid program that meets federal guidelines and is acceptable to businesses and health care providers.

Effective October 1, 2009, the Federal Deficit Reduction Act required that a quality assurance assessment program (QAAP) fee charged by a state must be broadly based and uniformly imposed across all service providers. This uniformity requirement prevented the state from assessing the QAAP selectively on Medicaid managed care organizations to leverage federal matching funds in support of the state's Medicaid program.

In response to this, the state amended the Use Tax Act (PA 440 of 2008) to apply the 6% tax to medical services provided by Medicaid Managed Care Organizations (MCOs) – the very same organizations that were previously subject to the QAAP. The use tax changes took effective April 1, 2009. PA 440 also repealed the relevant sections of the Social Welfare Act that authorized the QAAP, effectively terminating the assessment of those fees on April 1, 2009.

PA 141 of 2011 amended the Use Tax Act to remove MCOs from the tax base effective March 31, 2012. To replace the lost revenue (approximately $400 million annually), PA 142 of 2011 imposed a 1% Health Insurance Claims Assessment (HICA) Fee on health insurance claims effective January 1, 2012.

PA 161 of 2014 effectively restored the use tax on Medicaid MCOs effective April 1, 2014. The HICA rate was reduced to 0.75% via tie-barred legislation (PA 162 of 2014). Following restoration of the use tax on Medicaid MCO’s, the federal government informed the state that the policy of levying the use tax on Medicaid MCOs would need to be sunset for Michigan to remain in federal compliance and receive funding. PA 390 of 2016 amended the Use Tax Act to end collection of the tax on services provided by Medicaid MCOs on January 1, 2017 until the time when the HICA terminates.

SALES TAX

LEGAL CITATION: M.C.L. 205.51 et seq.; 1933 PA 167; Section 8, Article IX, state Constitution.

YEAR ADOPTED: 1933

BASIS OF TAX: Privilege of selling at retail.

MEASURE OF TAX (BASE): Gross proceeds from retail sale of tangible personal property for use or consumption. Also includes certain conditional and installment lease sales; sales to consumers of electricity, gas, and steam; and sales to persons in real estate construction and improvement business. Certain sales with the following characteristics are exempt from taxation, as follows:

Exemptions based on status of purchaser:
- property not purchased for resale by various nonprofit organizations and used primarily to carry out the organization’s purposes;
- property sold to churches for noncommercial purposes and certain vans and buses used to transport persons for religious purposes;
- food sold to enrolled students by an educational institution not operated for profit;
- property affixed to the real estate of nonprofit hospitals and nonprofit housing, including county long-term medical care facilities;
- certain property sold to commercial radio and television station licensees;
- vehicles not purchased for resale which are used by nonprofit corporations organized exclusively to provide a community with ambulance or fire department service;
- textbooks sold by a school to kindergarten through 12th grade students;
- vehicles which are purchased by nonresident active military personnel for titling in his or her home state;
- property purchased for use in a “qualified business activity” as defined in the Enterprise Zone Act;
- property sold to the federal government or to an instrumentality thereof;
- property sold to qualified taxpayers to be used at a producing nonferrous mineral mine or a facility where nonferrous minerals are beneficiated;
- tangible personal property for fund-raising purposes purchased by certain nonprofit organizations with calendar year sales of less than $5,000;
- trucks, trailers and certain property affixed to trucks or trailers owned by motor carriers engaged in interstate commerce to the extent of out-of-state usage;
- passenger or cargo aircraft with a certified takeoff weight of at least 6,000 pounds, or parts and materials (except shop equipment or fuel) sold to a domestic air carrier;
- employees of restaurants for food provided by their employer;
- sale of an eligible automobile by a qualified non-profit, charitable organization to a qualified recipient who is eligible for public assistance;
- motor vehicles, recreational watercraft, snowmobiles, or all terrain vehicles, and mobile homes sold to resident tribal members if the purchased item is for personal use and is to be used on the resident tribal member’s tribe agreement area;
- sale of data center equipment to either the owner or operator of a “qualified data center” or colocated business for assembly, use, or consumption in the operations of the center or to a person engaged in construction for where the equipment is to be affixed or made part of a “qualified data center”; this exemption applies until December 31, 2035 and is subject to certain job creation targets specified in statute.

Exemptions based on item purchased:
- copyrighted motion picture films, newspapers, and periodicals classified as second class mail;
- prosthetic devices, durable medical equipment, and mobility enhancing devices;
- drugs that can only be legally dispensed by prescription and over-the-counter drugs legally dispensed by a prescription for human use;
- food for human use not prepared for immediate consumption;
- beverage containers to the extent of any deposits;
railroad cars, locomotives, and accessories;
commercial advertising elements;
non-alcoholic beverages in sealed containers or food not artificially heated or cooled that are sold from a mobile facility or vending machine, except fresh fruit; tax may be paid on either sales of non-exempt vended food or sum of 45% of all vended sales other than carbonated beverages;
water delivered through water mains or in bulk tanks in amounts over 500 gallons;
personal property which is part of water and air pollution control facilities;
personal property for resale, for lease if rental receipts are subject to Use Tax, and for demonstration purposes;
investment coins and bullion;
certain aircraft and aircraft parts temporarily located in Michigan;
partial exemption (from two percentage points of the tax rate): sales for residential use of electricity, natural gas, and home heating fuel;
dental prosthesis.

Exemptions based on transaction type:
statutorily-defined portion (not more than $4,000 in 2018) of the agreed-upon trade-in value of a motor vehicle that is applied toward the purchase of another new or used motor vehicle; allowable credit is increased $1,000 every year on January 1, until January 1, 2029 when the full trade-in value becomes tax exempt;
agreed-upon trade-in value of a recreational vehicle that is applied toward the purchase of another used or new recreational vehicle;
agreed-upon trade-in value of a watercraft that is applied toward the purchase of another new or used watercraft;
certain food or tangible personal property purchased with federal food stamps;
property which is part of a drop shipment;
property which results in uncollectible debt.

Exemptions based on status of seller:
certain vending machine merchandise to the extent that commissions are paid to tax-exempt organizations;
property on an isolated basis by property owners not required to have Sales Tax license;
property sold by veterans organizations, limited to $25,000 per event.

Exemptions based on the use of the property or service:
tangible personal property purchased by a person engaged in constructing, altering, repairing, or improving real estate if it is to be affixed or made a structural part of a sanctuary;
specially-ordered commercial vessels of at least 500 tons engaged in interstate commerce and fuel, provisions, and supplies therefore;
property used in production of horticultural or agricultural products as a business enterprise;
property used or consumed in industrial processing as defined in statute;
certain property used to provide any combination of telecommunications services which are subject to the Use Tax;
certain products, equipment, machinery, and utilities used or consumed by an industrial laundry;
grain drying equipment and natural or propane gas used to fuel the equipment for agricultural purposes;
tangible personal property sold or used before January 1, 2016 in the construction or renovation of a “qualified convention facility” (refers to Cobo Hall in Detroit);
computer equipment for data transfer by companies whose business includes publishing doctoral dissertations and information archiving and sells the majority of its products to non-profit organizations exempt from the federal income tax;
charges attributed to recycling motor vehicle or recreational vehicle parts or batteries;
tangible personal property used in activities that qualify under a transformational brownfield plan that is turned into a structural part of the property or infrastructural improvement under the plan.
OUTLINE OF THE MICHIGAN TAX SYSTEM

SALES TAX (CONTINUED)

RATE: 6% (state constitutional limitation).

The Sales Tax can be considered two taxes, a 4% tax and a 2% tax. The 4% tax is established by law within the confines of a 4% limitation placed in the state Constitution. The voters approved an amendment to the constitution which authorized the remaining 2% tax rate in 1994. Because the state Constitution states that this additional tax shall be imposed, the 2% tax is the minimum rate that must be levied by the legislature.

Sales for residential use of electricity, natural or artificial gas, or home heating fuels are exempted from the additional 2% rate added in 1994 and are therefore subject only to the 4% rate.

ADMINISTRATION: Michigan Department of Treasury.

REPORT AND PAYMENT: For most taxpayers: payment is due by 20th day of month following sale, with discount for early remittance.

Very large taxpayers (those with sales tax liability, or use tax liability, or both, of $720,000 or more during the prior calendar year) make a monthly payment due by the 20th of the month that is equal to the lesser of (a) 75% of the tax liability for the same month in the prior calendar year or (b) 75% of liability for the previous month. In either case, a reconciliation payment is also required equal to any shortfall in the prior month’s payment based on final sales.

DISPOSITION:

The disposition of sales tax revenue is tied to the distinct 4% tax and 2% tax discussed in the previous section. Since the tax base to which the 2% rate is applied is somewhat smaller than the base for the 4% rate (which includes residential utility sales), the noted percentages vary by a small amount from year to year. Revenues are distributed as outlined below:

School Aid Fund: 60% of gross revenue generated from the 4% tax rate and 100% of the revenue generated from the additional 2% tax rate. For FY2017, this equated to 72.8% of total sales tax revenue.

Local Governments: 15% of gross revenue generated from the 4% tax is constitutionally dedicated for revenue sharing to cities, villages, and townships; an additional allocation from the sales tax is appropriated by the legislature for statutory revenue sharing to local units of government. For FY2017, the total earmark equated to 10.2% of total revenue.

Comprehensive Transportation Fund: 6.975% of sales tax revenue generated from the 4% tax from the sales of motor fuel, motor vehicles, and motor vehicle parts and accessories is statutorily earmarked to the state’s Comprehensive Transportation Fund to support public transportation programs. For FY2017, this equated to 1.1% of total revenue.

Aeronautics Programs: An amount equal to the sales tax revenue generated from the 2% tax from the sale at retail of aviation fuel shall be deposited into funds for aeronautics programs: 65% into the Qualified Airport Fund and 35% into the State Aeronautics Fund. For FY2017, this equated to 0.1% of total revenue.

Health Initiative Fund: An amount equal to the sales tax revenue generated from the 4% tax from the sale at retail of computer software is statutorily earmarked to the Health Initiative Fund, which supports policy planning and public information regarding AIDS and Hepatitis C. For FY2017, this equated to 0.1% of total revenue.

Remaining revenue, about 15.7% of total revenue in FY2017, to the state’s general fund.

2016-17 COLLECTIONS: $7,784,342,000

2016-17 COLLECTIONS/UNIT: $1,297 million per 1%
OUTLINE OF THE MICHIGAN TAX SYSTEM

SALES TAX (CONTINUED)

A 1933  PA 167 — Sales Tax established at 3%.
B 1960  Const Amend — Increased tax rate limitation to 4%.
C 1974  Const Amend — Eliminated sales and use taxes on food and prescription drugs.
D 1993  PA 325 — Increased tax rate to 6% effective May 1, 1994, subsequent to adoption of Proposal A.

Are Local Sales Taxes Constitutionally Permitted in Michigan?

Local units in many states levy sales taxes that are piggy-backed on a uniform state sales tax rate. Such situations create unevenness among local jurisdictions and competitive disadvantages for businesses in the higher tax jurisdictions. They also yield a significant revenue source that relieves pressure on the property tax and shifts some of the costs for local services outside the boundaries of the governmental unit.

Michigan’s Constitution fails to deal explicitly with the question of whether local units could be permitted to levy a sales tax. Instead, the 1963 Constitution set a maximum rate of 4% that the legislature could levy and later, as a result of Proposal A, an additional 2% rate was mandated for local public schools.

Confronted with this question in 1970, the Attorney General ruled that local sales taxes are not permitted under Michigan’s Constitution. In 1991, the legislature approved a bill permitting certain municipalities to impose an excise tax at a rate not to exceed 1% of the gross receipts of restaurants and hotels and 2% of automobile rental company gross receipts. These excise taxes reflect most of the elements of a sales tax and the tax on restaurants appears to fully meet all criteria defining a sales tax, notwithstanding the “excise tax” disguise.

Readers interested in more information on this subject are encouraged to review Report #305, Issues Relative to the Constitutionality of Local Sales Taxation in Michigan, June 1992, available on the CRC website at www.crcmich.org.

- motor vehicles, recreational watercraft, snowmobiles, or all-terrain vehicles, and mobile homes sold to resident tribal members if the purchased item is for personal use and is to be used on the resident tribal member's tribe agreement area;
- use of data center equipment by either the owner or operator of a "qualified data center" or colocated business in the operations of the center or by a person engaged in construction where the equipment is to be affixed or made part of a "qualified data center"; this exemption applies until December 31, 2035 and is subject to certain job creation targets specified in statute;
USE / STATE SHARE TAX (CONTINUED)

- Medicaid managed care services; this exemption applies until the Health Insurance Claims Amendment (HICA) sunsets July 1, 2020, or when HICA is repealed, or when the HICA rate reaches 0.0%, whichever comes first.

Exemptions based on item purchased:
- property which Michigan is prohibited by federal law from taxing;
- copyrighted motion picture films, newspapers, and periodicals classified as second class mail;
- vehicle purchased for resale by a new vehicle dealer;
- certain computer software that was written for exclusive use of the purchaser and related technical support;
- prosthetic devices, durable medical equipment, and mobility enhancing devices;
- water delivered through water mains or bulk tanks of at least 500 gallons;
- certain components of water and air pollution control facilities;
- aircraft operating under a federal certificate which have a maximum takeoff weight of at least 12,500 pounds and used solely to transport cargo or commercial passengers;
- railroad cars, locomotives, and accessories;
- certain property purchased for resale as promotional merchandise;
- drugs that can only be legally dispensed by prescription and over-the-counter drugs legally dispensed by prescription for human use;
- food for human use not prepared for immediate consumption;
- deposits on returnable beverage containers;
- international and WATS line telephone calls;
- commercial advertising elements;
- assessments for hotel or motel rooms imposed pursuant to accommodations taxes;
- prepaid telephone cards, prepaid authorization numbers, and charge for Internet access;
- storage, use, and consumption of investment coins and bullion;
- certain aircraft and aircraft parts temporarily located in Michigan;
- partial exemption (from two percentage points of the tax rate): consumption for residential use of electricity, natural gas, and home heating fuel;
- dental prosthesis.

Exemptions based on transaction type:
- statutorily-defined portion ($4,000 in 2018) of the agreed-upon trade-in value of a motor vehicle that is applied toward the purchase of another new or used motor vehicle; allowable credit is increased by $1,000 annually every January 1, until January 1, 2029 when the full trade-in value becomes tax exempt;
- agreed-upon trade-in value of a recreational vehicle that is applied toward the purchase of another new or used recreational vehicle.
- agreed-upon trade-in value of a watercraft that is applied toward the purchase of another new or used watercraft;
- property upon which the Michigan Sales Tax has been paid;
- property upon which sales or use tax was paid in another state or local unit of another state if that tax was at least equal to the Michigan use tax and the other state has a reciprocal exemption for Michigan taxes paid;
- property, possession of which was taken outside Michigan and the value of which does not exceed $10 during one calendar month;
- certain food or tangible personal property purchased with federal food stamps;
- agreed-upon trade-in value of a motor vehicle or recreational vehicle that is applied toward the purchase of another new or used vehicle.

Exemptions based on the use of the property or service:
- tangible personal property purchased by a person engaged in constructing, altering, repairing, or improving real estate if it is to be affixed or made a structural part of real estate located in another state or of a sanctuary;
- property used in production of horticultural or agricultural products as a business enterprise;
- property used or consumed in industrial processing as defined in statute;
specially-ordered commercial vessels of at least 500 tons engaged in interstate commerce, and fuel, provisions, and supplies thereof;
• certain machinery and equipment used to provide any combination of telecommunications services;
• certain products, equipment, machinery, and utilities used or consumed by an industrial laundry;
• tangible personal property acquired before January 1, 2016 by a person engaged in the construction business if the property is part of a “qualified convention facility”;
• computer equipment for data transfer by companies whose business includes publishing doctoral dissertations and information archiving and sells the majority of its products to non-profit organizations exempt from the federal income tax;
• charges attributed to the recycling of motor vehicle or recreational vehicle parts or batteries;
• property used for fishing as a business enterprise;
• tangible personal property used in activities that qualify under a transformational brownfield plan that is turned into a structural part of the property or infrastructural improvement under the plan.

**RATE:**

6% through September 30, 2015. Beginning October 1, 2015, the new state share rate will be 6% minus the local community stabilization share rate as determined annually by the Department of Treasury (see related box).

The state Constitution limits the use tax rate to 6%. The original Use Tax can be considered two different taxes. The 4% tax was established by law to parallel the Sales Tax rate. The voters approved the remaining 2% tax rate in 1994. Because the state Constitution states that this additional tax shall be imposed, the 2% tax is the minimum rate that must be levied by the legislature.

These limitations apply to the combined State Share Tax rate and Local Community Stabilization Share Tax.

**ADMINISTRATION:** Michigan Department of Treasury.

**REPORT AND PAYMENT:** For most taxpayers: payment is due by 20th day of month following sale, with discount for early remittance.

Very large taxpayers (those with sales tax liability, or use tax liability, or both, of $720,000 or more during the prior calendar year) make a monthly payment due by the 20th of the month that is equal to the lesser of (a) 75% of the tax liability for the same month in the prior calendar year or (b) 75% of actual liability for the previous month. In either case, a reconciliation payment equal to any shortfall in the prior month’s payment based on final sales.

**DISPOSITION:** Revenue generated from the additional rate of 2% approved by Michigan voters in March 1994 is deposited in the School Aid Fund.

From the revenue generated by the original 4% rate, revenue is deposited in the School Aid Fund in an amount equal to the revenue loss from the State Education Tax and certain school operating millages attributable to property tax exemptions enacted in 2014 for certain commercial and industrial personal property.

An amount equal to the use tax revenue generated from the 2% tax from the use of aviation fuel shall be deposited into funds for aeronautics programs: 65% into the Qualified Airport Fund and 35% into the State Aeronautics Fund. Remaining revenue goes to the General Fund.

**2016-17 COLLECTIONS:** $1,353,405,000

**2016-17 COLLECTIONS/UNIT:** $226 million per 1%
Recent Changes to Disposition of Use Tax Revenue

In August 2014, Michigan voters approved a significant change to the disposition of Michigan’s Use Tax revenue. The change is related to legislative packages enacted in 2012 and 2014 that will phase out the personal property tax on eligible industrial and commercial personal property. The phase out by itself would lead to significant reductions in local property tax revenues. In order to reimburse local governments for most of those lost revenues, the legislation sets aside a portion of Use Tax revenues for payments to eligible local units. Public Act 80 of 2014 divided the use tax into two distinct taxes: a local community stabilization share tax to be levied by a newly created Local Community Stabilization Authority, ostensibly a local unit of government governed by a council composed of five members appointed by the Governor; and a state share tax which will continue to be levied by the state.

The rate of the local community stabilization share will be calculated annually by the Michigan Department of Treasury to equal the rate necessary to generate specific revenue targets contained in the legislation. This component of the Use Tax will take in $96.4 million in FY2016, $380.9 million in FY2017, and then gradually rise to $572.6 million in FY2028. After FY2028, the revenue target will be adjusted by an annual 1% growth factor. The state share rate will then be the current 6 percent use tax rate minus the calculated local community stabilization share rate. All of the funds attributed to the local community stabilization share will come out of revenues generated from the original 4 percent Use Tax rate that was previously earmarked to the general fund. The general fund will then receive the remaining revenue from the tax at the 4 percent rate. The tax’s allocation to the School Aid Fund from the additional 2 percent rate approved in 1994 would be unaffected.

### MARIHUANA PRODUCTS TAX

**LEGAL CITATION:** M.C.L. 333.27101 et seq.; 2016 PA 281.

**YEAR ADOPTED:** 2016.

**BASIS OF TAX:** Privilege of selling medical marihuana products.

**MEASURE OF TAX (BASE):** Medical marihuana distributors gross retail receipts.

**RATE:** 3% of a provisioning center’s gross retail receipts.

**ADMINISTRATION:** Michigan Department of Treasury.

**REPORT AND PAYMENT:**
- Due 30 days after the end of each calendar quarter.
- Each retailer must submit a form provided by the treasury that shows the gross quarterly retail income of the provisioning center and the amount of tax due.
- If a law authorizing non-medical use of marihuana is enacted, this section is functionally repealed 90 days after the date of that law.

**DISPOSITION:**
- All money collected is deposited in the Medical Marihuana Excise Fund, which is directed by the state treasurer for distribution as follows:
  - 25% of the fund is allocated to municipalities in proportion to the number of facilities in each municipality;
  - 30% is allocated to counties based on the proportion of the number of facilities in the county;
  - 5% allocated to counties based on the proportion of the number of facilities in the county that is exclusively budgeted for county sheriff departments;
  - 30% to the general fund until September 30, 2017 at which point that portion of the revenue is deposited in the first responder presumed coverage fund;
  - 5% to the Michigan commission on law enforcement standards for training local law enforcement officers; and
  - 5% to the department of state police.

ACCOMMODATIONS (HOTEL-MOTEL) TAXES*

LEGAL CITATION:  
M.C.L. 141.861 et seq.: 1974 PA 263.  
M.C.L. 207.621-207.640: 1985 PA 106.

YEAR ADOPTED:  
1974 (enabling act for certain counties with populations under 600,000 which may adopt by ordinance).  
1985 (for counties with populations over 700,000). Tax is authorized until December 31, 2039, or 30 days after debt issued by the Detroit Regional Convention Facility Authority is retired, whichever is sooner. These debts are not projected to be retired until 2039.

BASIS OF TAX:  
Privilege of engaging in business of providing accommodations.

MEASURE OF TAX (BASE):  
In counties under 600,000 population and with a city over 40,000 population: amount charged transient guests for lodging in any hotel/motel. As of 2017, Calhoun, Genesee, Ingham, Kalamazoo, Kent, Muskegon, Saginaw, and Washtenaw levy the tax.  
In counties over 700,000 and with a 350,000 sq. ft. convention facility and/or 2,000 rooms (Wayne, Oakland, and Macomb): amount charged transient guests for lodging in a hotel/motel of over 80 rooms.

RATE:  
Rate varies according to the population of the county in which the hotel/motel is located. Rate further varies if the hotel/motel is located within a “Qualified Governmental Unit,” which is defined as a city (Detroit) that is the owner or lessee of a convention facility with 350,000 square feet or more of total exhibit space (Cobo Hall).  
In counties under 600,000: not more than 5%, as determined by county. As of 2017, all counties levy the tax at the maximum rate.  
In counties over 700,000:

### YEAR ADOPTED:

### BASIS OF TAX:
Ownership, lease, or possession of certain eligible industrial and/or commercial personal property predominantly used in industrial processing or direct integrated support that is otherwise exempt from the general property tax.

### MEASURE OF TAX (BASE):
Fair market value of the personal property at time of acquisition by the first owner, including the cost of freight, sales tax, installation, and other capitalized costs, except capitalized interest.

**Exemptions**: The Board of Directors of the Michigan Strategic Fund may, by resolution, exempt eligible personal property from the state assessment and from the alternative state assessment, at its discretion. In order to be eligible for exemption, the personal property must be part of a broader business plan presented by an eligible claimant that demonstrates a minimum of $25.0 million in additional personal property investment within Michigan during the duration of a written agreement between the claimant and the Michigan Strategic Fund.

### RATE:
Based on the number of years elapsed since acquisition of the property. Relevant personal property will generally be assessed at the regular rate. Eligible property exempted from the regular rate by the Michigan Strategic Fund may be assessed at the alternative rate, which is one-half the regular rate. The Michigan Strategic Fund may also fully exempt eligible property from any assessment.

OUTLINE OF THE MICHIGAN TAX SYSTEM

GENERAL PROPERTY TAX

LEGAL CITATION: M.C.L. 211.1 et seq.; 1893 PA 206; Sections 3 and 6, Article IX, state Constitution.

BASIS OF TAX: Ownership of real and personal property not otherwise exempted.

Real versus Personal Property

The distinction between real and personal property is relatively straightforward. Real property is basically land and buildings. Personal property is generally movable. Personal property includes a broad array of assets, including most equipment, furniture, and fixtures used by businesses. In addition, electric transmission and distribution equipment, gas transmission and distribution equipment, and oil pipelines are all considered personal property.

Establishing the assessed value of real versus personal property involves different methodologies, although all taxable property is required to be assessed at 50% of true cash value, the state equalized valuation. Real property assessments are developed by comparing similar properties and principally use sales and cost data to establish assessment changes. Personal property assessments use acquisition costs adjusted by depreciation multipliers to reflect declining values, as an asset ages.

Property taxes are determined by multiplying the tax rate by the taxable value of a parcel of property. The taxable value of a parcel may differ from the state equalized value as a result of limits on increases placed in the Michigan Constitution by Proposal A of 1994. Taxable value may not rise by more than the lesser of the increase in the consumer price index or 5%. The methodology used to assess personal property virtually assures that a parcel’s assessed and taxable values will be the same. In contrast, real property had a gap of 19% between assessed and taxable values in 2017.

MEASURE OF TAX (BASE): Taxable value, which cannot increase in any one year by more than the lesser of 5% or inflation, excluding additions and losses. When transferred, property is reassessed in accordance with state equalized valuation which equals 50% of true cash value. The taxable value for agricultural property being transferred between owners will remain capped if the new owner keeps the property in agricultural use for at least seven years from the date of transfer. If the property ceases to be agricultural property within the seven-year period, the property’s taxable value will be adjusted to reflect the property’s state equalized valuation. The taxable value for qualified forest property being transferred between owners will remain capped if the new owner keeps the property as qualified forest property for at least 10 years from the date of transfer. If the property ceases to be qualified forest property within the 10-year period, the property’s taxable value will be adjusted to reflect the property’s state equalized valuation.

Numerous exemptions exist, notably:
(1) certain property owned by nonprofit religious, charitable, or educational organizations;
(2) government property;
(3) property subject to specific state taxes (e.g., railroad and telephone property, intangibles, motor vehicles);
(4) property subject to specific local taxes in lieu of property taxation, such as commercial forest land; mobile homes; low grade iron ore; certified industrial, commercial, technological, commercial housing facilities, obsolete property rehabilitation; certain nonferrous minerals and mineral-producing property; and eligible hydroponics and aquaculture production facilities.
(5) certain household property, personal business property and mechanic’s tools;
(6) personal property used in agricultural operations;
(7) inventory property;
(8) special manufacturing tools (dies, jigs, fixtures, molds, etc.);
(9) solar, water or wind energy conversion devices (pre-1984);
(10) property in transit located in a public warehouse, dock or port facility;
Phase-Out of the Personal Property Tax on Certain Manufacturing Property

Perhaps the most significant change to the state’s tax laws during 2012 was the enactment of legislation phasing out the personal property tax (PPT) on industrial property and certain commercial property. An eleven bill package\(^1\) enacted in December 2012 phases out the imposition of the tax over the 10-year period between 2014 and 2023. Specifically, these bills:

- Effective in tax year 2014, exempted all commercial and industrial personal property (regardless of use) from the PPT if the combined true cash value of the property owned or controlled by a taxpayer in a given local tax collecting unit is less than $80,000
- Beginning in tax year 2016, exempted all new industrial personal property and any new commercial personal property used primarily for or in direct support of industrial processing that was purchased and placed into service during or after 2013
- Beginning in tax year 2016 and continuing thereafter, exempt any industrial personal property and any new commercial personal property used primarily for or in direct support of industrial processing that has effectively been placed in service for the immediately preceding 10 years

The table below illustrates how the phased in exemption will work. Again, property became exempt immediately in 2014 if an individual controlled property with a total true cash value below $80,000. Remaining personal property tied to industrial processing became/will become exempt over time based on the year it was first placed into service. In tax year 2016, new personal property tied to industrial processing and placed into service after December 31, 2012 all became exempt. Further, any eligible personal property placed into service before 2006 also became exempt from the PPT. In 2017, the exemption expanded to cover eligible personal property placed into service during 2006. Likewise, in tax year 2018, property placed into service during 2007 will become exempt. This gradual phase-in will continue until all eligible property becomes exempt in tax year 2023.

1. The bills (and their corresponding public act numbers) that were part of the package were Senate Bills 1065 through 1071 (which became Public Acts 397 through 403 of 2012, respectively), House Bill 6022 (Public Act 404), and House Bills 6024 through 6026 (Public Acts 406 through 408). The exemption provisions were further revised in 2013 by Senate Bills 489 and 490 (Public Acts 153 and 154 of 2013).
(11) property located in a renaissance zone, except for the portion of tax attributable to special
assessments, taxes levied for the payment of general obligation bonds, intermediate
school district-wide enhancement mills and local school district sinking fund millages;
(12) federally-qualified health centers;
(13) biomass gasification systems, thermal depolymerization systems, and methane digesters;
(14) personal property designated as industrial and commercial property for school operating
millages;
(15) new personal property in one or more "distressed parcel", subject to local approval;
(16) supportive housing property for school operating millages;
(17) property occupied by a public school academy (charter school) and used exclusively for
educational purposes for school operating millages;
(18) commercial and industrial personal property owned by a taxpayer with a true cash value
of less than $80,000 in a particular tax collecting unit;
(19) Beginning in 2016, the tax is phased out for certain personal property used primarily for, or in direct support of, industrial processing. The phase out continues until all such property is exempt in 2023;
(20) Real and personal property owned by a nonprofit street railway.

Credits for property taxes paid: see Personal Income Tax.

RATE:

Varies by local unit, but certain statewide constitutional and statutory restrictions exist. The rate may not exceed 15 mills ($15 per $1,000) or 18 mills in counties with separate, voter-fixed allocations for all jurisdictions without voter approval. (These limitations were reduced by the number of mills allocated to local school districts in 1993, after which local school districts may not receive allocated millage.)

The foregoing limitations may be increased up to 50 mills with voter approval. Excluded from these limitations are:

1. Debt service taxes for all full faith and credit obligations of local units;
2. Taxes imposed by units having separate tax limitations provided by charter or general
law (cities, villages, charter townships, and charter counties);
3. Taxes imposed by certain districts or authorities having separate limits (e.g., charter
water authorities, port districts, metropolitan districts, and downtown development
authorities);
4. Certain taxes imposed by municipalities for special purposes (garbage services, library
services, services to the aged, and police and fire pension funding).

The state constitutional tax limitation amendment of 1978 (Headlee) and state law require a taxing jurisdiction to roll back maximum authorized rates if the taxable value, excluding new construction, increases faster than the rate of inflation (which the governing body can overcome by vote). Local school district operating taxes are limited to the lesser of 18 mills or the 1993 millage rate. Principal residence, industrial personal property, and qualified agricultural property is entirely exempt from school millages. Commercial personal property is partially exempt (12 of the 18 mills). However, school districts with a 1994-95 per pupil foundation allowance of over $6,500 may reduce the exemption on principal residence and qualified agricultural property by the number of mills necessary to raise that portion of their per pupil foundation allowance that exceeds $6,500 and, if necessary, also may levy additional mills on all property to generate that additional per pupil dollar amount. In addition, voters in intermediate school districts may approve up to 3 additional mills for operating purposes. In calendar year 2017, the state average millage rate, including the 6-mill State Education Tax, was 41.7 mills.
Outlines of the Michigan Tax System

General Property Tax (continued)

Administration:
Property assessed by city and township assessors; values equalized by county and state among six classifications of real property (residential, commercial, industrial, developmental, agricultural, and timber cutover) plus personal property. Collection by township, city, and county treasurers. Delinquent taxes on real property collected by county treasurers (except in Kalamazoo).

Report and Payment:
Township and county taxes due December 1. School taxes due December 1, unless school board elects to make all or one-half due July 1. City and village taxes due in accordance with charters.

Disposition:
As locally determined. The state reimburses local governments for certain lands controlled by the Michigan Department of Natural Resources, in lieu of property taxes (often called "the swamp tax"); this reimbursement is equal to $2.00 an acre. (M.C.L. 324.2150)

### AD VALOREM SPECIAL ASSESSMENTS

| LEGAL CITATION: | M.C.L. 117.4d; 1909 PA 279 (public improvements and street lighting – cities); M.C.L. 41.414; 1923 PA 116 (various public improvements – townships and villages); M.C.L. 41.801; 1951 PA 33 (police/fire equipment and operations – cities with less than 10,000 population, townships, and villages); M.C.L. 41.721 et seq.; 1954 PA 188 (various public improvements – townships); M.C.L. 560.192a; 1967 PA 288 (operation and maintenance of storm water retention basins – townships, villages, and cities); M.C.L. 125.1662; 1975 PA 197 (construction, renovation, etc. of facilities, existing buildings and multi-family dwellings – downtown development authorities). |
| YEAR ADOPTED: | Various (see above). |
| BASIS OF TAX: | Ownership of real property. |
| MEASURE OF TAX (BASE): | Taxable value of the real property subject to the assessment. Property that is exempt from the General Property Tax, such as religious, charitable, or educational property is not exempt from the base of special assessments unless the statute authorizing the specific type of special assessment so provides. PA 33 and PA 197 exempt property that is exempt from the General Property Tax Act. PA 279 prohibits city-wide ad valorem special assessments for street lighting if real property in the city is assessed on ad valorem basis. |
| RATE: | Determined as a rate by dividing the cost of the public improvement or service being financed by the taxable value of the special assessment district. In some cases, limits, as to the rate, are established in law. PA 33 limits levy to 10 mills for equipment, no limit for operations. PA 116 limits levy for a single assessment to 15% of assessed value and to 45% of assessed value for all assessments under the Act in any single year. PA 197 limits levy to 2 mills. |
| ADMINISTRATION: | Same as General Property Tax. |
| REPORT AND PAYMENT: | Same as General Property Tax. |
| DISPOSITION: | Locally determined. |
| 2016-17 COLLECTIONS: | $172,690,401 (unit-wide special assessments only). |

### MOBILE HOME TRAILER COACH TAX

## Hydroponics and Aquaculture Facilities Specific Tax

**Legal Citation:** M.C.L. 211.981-211.986; 2014 PA 512.

**Year Adopted:** 2014.

**Basis of Tax:** In lieu of general property taxation for owners of an eligible hydroponics production facility or an eligible aquaculture production facility.

**Measure of Tax (Base):** Taxable value of the eligible hydroponics production facility or eligible aquaculture production facility.

A hydroponics production facility is real property used for an indoor agricultural production operation which uses hydroponic techniques or practices for growing plants. To be eligible for the specific tax, a facility must have a production area of at least one acre and must not grow plants that are illegal under federal law.

An aquaculture production facility is real property used for an indoor aquaculture production facility using aquaculture techniques or practices for growing aquaculture species. A facility must have a production area of at least 10,000 square feet to be eligible for the specific tax.

**Rate:** Annual tax equals 25 percent of the annual property tax payment that the eligible facility would otherwise owe under the general property tax from levies that existed on December 31, 2014 if not exempt, except that the facility also qualifies for the principal residence exemption from taxes levied by local school districts for operating purposes. Tax is adjusted annually for any new millages approved within the local tax collecting unit after December 31, 2014 by adding an amount equal to the newly authorized mills times the taxable value of the eligible facility.

**Administration:** State Tax Commission; local assessors and treasurers.

**Report and Payment:** Same as the General Property Tax.

**Disposition:** Same as the General Property Tax.

## Eligible Tax Reverted Property Specific Tax

**Legal Citation:** M.C.L. 211.1021 et seq.; 2003 AP 260.

**Year Adopted:** 2003. Tax Reverted Clean Title Act.

**Basis of Tax:** Ownership of eligible tax reverted property.

**Measure of Tax (Base):** Taxable value of eligible tax reverted property.

**Rate:** Same as the General Property Tax.

**Administration:** Same as the General Property Tax.

**Report and Payment:** Same as the General Property Tax.

**Disposition:** 50% distributed in the same manner as the General Property Tax. The remaining 50% goes to the authority that sold or conveyed the property under the Land Bank Fast Track Act, and is earmarked to either fund purposes authorized under the Land Bank Fast Track Act, or repay loans made to the authority under section 2f of the Surplus Funds in Treasury Act.
COUNTY REAL ESTATE TRANSFER TAX

LEGAL CITATION: M.C.L. 207.501 et seq.; 1966 PA 134.

YEAR ADOPTED: 1966

BASIS OF TAX: Privilege of transferring any interest in real property.

MEASURE OF TAX (BASE): Fair market value of written instrument by which property is transferred.

Exemptions include written instruments involving the following:

1. transfers of less than $100;
2. transfers of land outside Michigan;
3. transfers which the state is prohibited by federal law from taxing;
4. security or an assignment or discharge of a security interest;
5. transfers evidencing a leasehold interest;
6. personal property;
7. transfers of interests for underground gas storage purposes;
8. transfers where a governmental unit is the grantor;
9. transfers involving foreclosure by a governmental unit;
10. certain interspousal transfers;
11. transfers ordered by a court if no consideration is ordered;
12. transfers to straighten boundary lines if no consideration is paid;
13. transfers to correct a title flaw;
14. land contracts in which title does not pass until full consideration is paid;
15. transfers of mineral rights;
16. creation of joint tenancies if at least one joint tenant already owned the property;
17. transfers to a bankruptcy trustee, receiver, or administrator.

RATE: 55 cents per $500 (0.11%) or fraction thereof of total value. Wayne County is statutorily authorized to impose a rate of 75 cents per $500 (0.15%), but voter approval is required. It currently levies the tax at a rate of 55 cents per $500 (0.11%) of taxable value.

ADMINISTRATION: Supervision: Department of Treasury. Collection: Treasurer of county in which transfer occurs.

REPORT AND PAYMENT: Due when transaction is recorded.

DISPOSITION: General fund of county in which tax is collected.

| RATE:           | Specific: $1.30 per acre until December 31, 2021. Beginning January 1, 2022, and every five years after that date, the tax rate will be increased by five cents per acre. (The state also pays $1.30 per acre until December 31, 2021. Beginning January 1, 2022, and every five years after that date, the annual state payment will increase by five cents per acre to each county within which acreage is located.)  

Withdrawal: $1.00 per acre application fee with a minimum fee of $200 per application and a maximum of $1,000 per application, plus per acre penalty. The penalty is a function of the number of acres withdrawn, value of property, average millage rate for all townships in the county where property is located, the number of years, up to seven, in which the withdrawn property had been designated as commercial forestland, and a county-specific (contained in law) factor. The property’s value is equal to the previous year’s value adjusted for inflation, but not to exceed 5%. Land owners that are approved for the Transitional Qualified Forest program may withdraw without penalty, and are eligible to do so until September 1, 2021.  

For commercial forestland that is subject to a sustainable forest conservation easement, the rate is 15 cents per acre less than the rate for all other commercial forestland. The application fee for withdrawal is $2.00 per acre with a minimum fee of $200 per application and a maximum of $1,000 per application. |

The exemption will be set at $5,000 starting January 1, 2019, and increase by $1,000 dollars each January 1 after. After the value exceeds $14,000, there will be no cap on exempt trade-in value. Eliminated the phase-in schedule for the Sales Tax exemption of recreational vehicle trade-ins, making the trade-in value fully exempt.
APPENDIX A  2017 CHANGES IN MICHIGAN TAX LAWS (CONTINUED)

### Use Tax

2017  PA  49: Exempts tangible personal property used in activities that qualify under a transformational brownfield plan from the use tax, if it is turned into a structural part of the property or infrastructural improvements under the plan.

PA 218: Exempts the sale of dental prostheses from the Use Tax. The change was made effective retroactively to July 1, 2017.

PA 220: Defines the phrase “dental prostheses.”

2018  PA  1: Accelerates the phase-in schedule of the Use Tax exemption of the value of vehicle trade-ins when purchasing a vehicle. The exemption will be set at $5,000 starting January 1, 2019, and increase by $1,000 dollars each January 1 after. After the value exceeds $14,000, there will be no cap on exempt trade-in value. Eliminated the phase-in schedule for the Use Tax exemption of recreational vehicle trade-ins, making the trade-in value fully exempt.

### Transportation Taxes

#### Motor Vehicle Registration Fee

2017  PA 115: Increases the motorcycle endorsement fee from $13.50 to $16.00, and increases the renewal costs from $5.00 to $7.00. This money is to be deposited in the newly created Motorcycle Safety Awareness Fund. Also increases the Motorcycle Registration Tax from $23.00 to $25.00 and increases the earmark from these fees for the Motorcycle Safety Fund from $3.00 to $5.00.

PA 238: Delays the implementation of the scheduled increase in motorcycle endorsement fees and the Motorcycle Registration Tax. The endorsement fee would be increased beginning January 20, 2018 instead of October 25, 2017, and the fee would increase from $7.00 to $9.00 from October 1, 2018 until December 31, 2019. The Registration Tax increase was delayed until February 19, 2019.

#### Motor Fuel Tax

2018  PA  55: Exempts Number 5 fuel oil, number 6 fuel oil, and bunker C fuel oil (also known as navy special fuel oil) from the Motor Fuel Tax.
Ad Valorem Tax: A tax computed from the value of a property. Property taxes and part of the Michigan Motor Vehicle Registration Tax are levied based on the value of the property or automobile. Contrast with these taxes are most special assessments, which are levied based on a measure of how the property is benefited by a capital improvement such as frontage, or the prior method of taxing vehicle registrations, which was the weight of the automobile.

Benefication: The treatment of raw material, such as iron ore, to improve physical or chemical properties.

C Corporation: A corporation that is taxed separately from its owners under the federal income tax. C corporations include all corporations not taxed as S corporations.

Capitation: A payment method for health care services. The physician, hospital, or other health care provider is paid a fixed contracted rate for each member assigned, regardless of the number or nature of services provided. Payment can be adjusted for age, gender, illness, and regional differences.

Captive Insurance Company: An insurance company that insures risks of its parent, affiliated companies, controlled unaffiliated business, or a combination of its parent, affiliated companies, and controlled unaffiliated business.

Carryback: A loss sustained or a portion of a credit not used in a given period that may be deducted from taxable income for a prior period.

Collateral Heirs: Persons who receive the assets of an individual who has died.

Earmarked: The dedicating or setting aside of financial resources for a specific use.

Excise Tax: A tax levied on the purchase of individual products and services. Taxes levied on tobacco products, alcohol, beer and wine, and gasoline are examples of excise taxes. Contrast with these are general sales and use taxes that are levied because a retail sale has occurred rather than because of the product purchased.

Fiscal Year: An accounting period of twelve months at the end of which a government determines its financial condition and the results of its operations and closes its books. The state fiscal year runs from October 1 through September 30 of the following year. Various Michigan local governments have fiscal years that run from January 1 to December 31, April 1 to March 31, July 1 to June 30, or October 1 to September 30.

Grantor Trusts: Trusts where the income is taxed to the party placing the money into the trust or some other person under subpart E of subchapter J of the federal internal revenue code.

Gross Receipts: Entire amount received by a taxpayer from any business activity for direct or indirect gain, benefit or advantage to the taxpayer.

Mill: One one-thousandth of a dollar of assessed value, meaning that one mill is worth $1 of tax per $1,000 of assessed value.

Nexus: The amount or level of presence in a state that is required before a company is subject to taxation by that state or sub-geographical area of the state.

Pari-Mutuel: A system of betting in which the amounts wagered are placed in a pool to be shared by those who bet on the winners minus a percentage for the management.

Personal Property: Generally considered to be things that are movable. Personal property includes tangible property (other than real property), intangible property, and inventory.

Real Property: Land, buildings and fixtures on the land, and appurtenances to the land.

Scrip: Any substitute for currency which is not legal tender and is often a form of a credit.

APPENDIX B  GLOSSARY OF TERMS (continued)

Severance Tax: A tax imposed distinctively on removal of natural products such as oil, gas, other minerals, timber, or fish and measured by value or quantity of products removed or sold.

Specific Tax: Article IX, Section 3, of the Michigan Constitution provides for the uniform general ad valorem taxation of real and tangible personal property not exempt by law. The Constitution permits the legislature to provide for alternative means of taxation of designated real and tangible personal property in lieu of general ad valorem taxation. These taxes levied in lieu of ad valorem taxes are specific taxes.

Subchapter S Corporation: A small business corporation limited to no more than 100 shareholders. Statutorily, it is defined as a corporation electing taxation under subchapter S of chapter 1 of subtitle A of the Internal Revenue Code, sections 1361 to 1379 of the Internal Revenue Code.

Tangible Assets: An item that is capable of being perceived especially by the sense of touch. Contrasted with tangible assets are intangible assets, which include items such as stocks, bonds, and bank holdings. Intangible assets were taxed under the General Property Tax in Michigan until 1939, when the state began collecting the Intangibles Tax. The Intangibles Tax was phased out as of January 1, 1998.

Transient Guest: A person staying less than 30 consecutive days at a particular establishment.

True Cash Value: A cash value of property determined by finding out what one could reasonably expect to get in an “arms length” transaction.

Value Added: Microeconomics explains that for a business endeavor to be successful, revenues will be equal to the cost of labor, the cost of materials, depreciation, and interest as well as allowing some profit for the owners or investors. The “value added” is simply the difference between these revenues and the value of the cost of materials purchased from other firms to produce the product.

Value Added Tax: A broad-based tax levied on that portion the “value added” of the final product of a business that is over and above the value of the materials it purchased. Each business is taxed on the addition to value it contributes to the final product or service. By applying the tax against the added value, multiple taxation of the same business activity is avoided and transactions between businesses are treated the same as those between internally integrated operations within a single firm.

There are two methods of arriving at this tax base for a value-added tax: the deduction method and the addition method. Under the deduction method, the value added by any individual firm is equivalent to its total sales receipts less its costs for materials. Michigan utilized the deduction method when it levied the Business Activities Tax from 1953 to 1967. The addition method bases the tax on the total of the firm’s profits, that is federal taxable income, with the addition of items that reflect the value added by the business that are excluded from federal taxation. These include the cost of labor, depreciation, and interest. This method was used in computing the former Single Business Tax.

Written Instrument: Includes contracts for the sale or exchange of real estate or any interest therein. Includes deeds or instruments of conveyance of real property or any interest therein for consideration.

OUTLINE OF THE MICHIGAN TAX SYSTEM

APPENDIX D  MICHIGAN BUSINESS TAX

LEGAL CITATION:  M.C.L. 208.1101 et seq.; 2007 PA 36.

Repeal of the Michigan Business Tax

The tax was repealed for most taxpayers effective January 1, 2012. Public Act 39 of 2011 replaced the Michigan Business Tax with a 6% Corporate Income Tax. The special taxes on financial institutions and insurance companies contained in the Michigan Business Tax Act were moved, intact, to the Income Tax Act (which contains the new Corporate Income Tax); however, a number of the credits available to these entities were eliminated. Nearly all of the Michigan Business Tax credits are eliminated under the new Corporate Income Tax. In certain cases, however, taxpayers can elect to continue to file under the Michigan Business Tax to take advantage of specific credits authorized prior to January 1, 2012.

Beginning January 1, 2012, certain taxpayers with "certificated credits" can elect to continue to file under the Michigan Business Tax election, in place of the new Corporate Income Tax, in order to receive their credit. The law requires taxpayers to pay a tax based on the greater of their Michigan Business Tax liability or their liability under the Corporate Income Tax. Taxpayers electing to file under the Michigan Business Tax must continue to do so until the certificated credit and any carryforward from that credit is used up. Generally speaking, "certificated credits" refer to those credits that result from some agreement between the state and the taxpayer in which a voucher or credit certificate is issued. Tax credits preserved under the definition of "certificated credits" include:

• Early Stage Venture Capital Credit;
• Brownfield Redevelopment Credit;
• Michigan Economic Growth Authority Credits (various);
• Film Production Credits;
• Film Infrastructure Credit;
• Historic Preservation Credit;
• Renaissance Zone Credit;
• Farmland Preservation Credit; and
• NASCAR Speedway Infrastructure and Safety Credit.

Under Public Act 39, the Michigan Business Tax Act will be repealed when the Department of Treasury notifies the Secretary of State that all certificated credits have been exhausted. Thus, the Michigan Business Tax was not immediately repealed under Public Act 39 for all taxpayers, although for most taxpayers it was effectively repealed.

BASIS OF TAX:

The tax is comprised of two components, an income tax and a modified gross receipts tax. For the income tax component, the basis is a direct tax on business income. For the modified gross receipts component, the basis is the privilege of doing business in Michigan. Both components apply to all businesses with activity in the state and gross receipts exceeding $350,000 sourced to Michigan. Insurance companies and financial institutions pay separate taxes from the income and gross receipt taxes and are not subject to the $350,000 filing threshold.

MEASURE OF TAX (BASE):

The basis of the business income tax component begins with the federal taxable income of the business entity. The basis of the modified gross receipts tax component is the gross receipts of the business entity, less purchases from other firms. Both taxes are subject to a number of base adjustments and apportionment to Michigan.

Base Adjustments:

Business Income Tax

Federal taxable income adjusted to:

1) add back certain federal income tax deductions (e.g., interest income and dividends from other states’ obligations; income taxes and Michigan Business Tax paid; net operating loss carryback/forward; royalty, interest, or other expense paid to a person related to the taxpayer by ownership or control for the use of an intangible asset);
APPENDIX D  MICHIGAN BUSINESS TAX (CONTINUED)

(2) deduct certain items included in federal taxable income (e.g., dividends and royalties from non-United States entities; interest income from U.S. obligations; net earnings from self-employment; the book-tax difference for qualifying assets);

(3) add the loss or deduct the gain attributable to another taxable business, to the extent included in federal taxable income;

(4) deduct any business loss.

**Modified Gross Receipts Tax**

Gross receipts exclude the following:

1. amounts of "bad debt" for federal income tax purposes phased in over a 5-year period (50% in 2008, 60% in 2009 and 2010, 75% in 2011, and 100% in 2012 and each year thereafter);

2. proceeds from sales by a principal that are collected in an agency capacity solely on behalf of the principal;

3. amounts received as an agent solely on behalf of the principal that are expended by the taxpayer under certain circumstances;

4. amounts excluded from gross income of a foreign corporation engaged in the international operation of aircraft under IRC section 883(a);

5. amounts received by an advertising agency used to acquire advertising media time, space, production or talent on behalf of another person;

6. amounts received by a newspaper used to acquire advertising space not owned by that newspaper in another newspaper on behalf of another person, excluding any consideration received for acquiring that advertising space;

7. amounts received by a person that manages real property owned by a client that are deposited into a separate account kept in the name of the client and that are not reimbursed and are not indirect payments for management services provided to that client;

8. proceeds from the original issue of stock, equity instruments or debt instruments;

9. refunds from returned merchandise;

10. cash and in-kind discounts;

11. trade discounts;

12. federal, state or local tax refunds;

13. security deposits;

14. payment of the principal portion of loans;

15. value of property received in like-kind exchange;

16. proceeds from a sale or other disposition of property less any gain from the disposition or reorganization to the extent that the gain is included in the taxpayer's taxable income, subject to certain limitations;

17. proceeds from an insurance policy, settlement of a claim or judgment in a civil action, less any proceeds that are included in federal taxable income;

18. proceeds from the taxpayer's transfer of an account receivable, if the sale that generated the account receivable was included in gross receipts for federal income tax purposes. This provision does not apply to a taxpayer who both buys and sells any receivables during the tax year.

19. for a sales finance company at least partly owned by a motor vehicle manufacturer, and for a securities broker or dealer, amounts realized from the repayment or sale of the principal of a loan, bond, or similar marketable instrument if not held as inventory, and the principal amount received under a repurchase agreement or other transaction properly characterized as a loan;

20. for a mortgage company, proceeds representing the principal balance of loans transferred or sold in the tax year;

21. for a professional employer organization (PEO), the actual cost of compensation paid to or on behalf of a covered employee by the PEO under a professional employer arrangement;
APPENDIX D MICHIGAN BUSINESS TAX (CONTINUED)

(22) invoiced items used to provide more favorable floor plan assistance to a person subject to the MBT than to a person not subject to the MBT and paid by a manufacturer, distributor, or supplier;
(23) for an individual, estate, or other person organized for estate or gift planning purposes, amounts received from personal investment activity and the disposition of property held for personal use and enjoyment;
(24) for a person that is organized exclusively to conduct investment activity for himself or a relative, amounts derived from investment activity;
(25) interest income and dividends derived from obligations or securities of the U.S. government, state government, or any sub-state governmental unit;
(26) dividends and royalties received from a foreign operating entity;
(27) to the extent amounts are not deducted as “purchases from other firms”, amounts relating to certain federal and state taxes and certain state fees;
(28) amounts attributable to an ownership interest in a pass-through entity, investment company, real estate investment trust, or cooperative corporation;
(29) amount of the excise taxes paid by a person on or for cigarettes or tobacco products.
(30) amounts attributable to the taxpayer pursuant to a discharge of indebtedness as defined in the federal Internal Revenue Code, including forgiveness of a nonrecourse debt.

“Purchases from other firms” include:
(1) inventory acquired during the tax year;
(2) depreciable assets;
(3) materials and supplies;
(4) for eligible general building, heavy construction, and construction special trade contractors “materials and supplies” also includes payments for materials deducted as purchases in determining the cost of goods sold for the purpose of calculating total income on Federal return;
(5) for a staffing company, compensation of personnel supplied to its customers;
(6) for eligible construction contractors, payments to subcontractors;
(7) for a theater owner, film rental and royalty payments; and
(8) for real estate brokers, salespeople, or appraisers, certain payments made to independent contractors.

Insurance Companies and Financial Institutions Tax

For insurance companies: The base of the tax is gross direct premiums written on property or risk located or residing in Michigan, excluding:
(1) premiums on policies not taken;
(2) returned premiums on canceled policies;
(3) receipts from the sale of annuities;
(4) receipts on reinsurance premiums if the tax was paid on the original premium; and
(5) the first $190 million of disability insurance premium, other than credit insurance and disability income insurance premiums.

For financial institutions, including their subsidiaries: The base of the tax is the financial institution’s net capital. Net capital is averaged over a five-year period and excludes goodwill and the average daily value of obligations of the United States and Michigan.

Apportionment:
For businesses with activity entirely within Michigan, the income and modified gross receipts tax bases are allocated entirely to Michigan. For businesses with multi-state activity, the income and modified gross receipt tax bases are allocated in proportion to sales in Michigan, with exceptions for certain types of businesses.
Credits are allowed for:

1. 0.37% of compensation paid in Michigan;
2. 2.9% of the cost of new capital assets located in Michigan. Combined with the compensation credit, limited to 52% of tax liability, before surcharge;
3. 1.9% of research and development expenses. Combined with compensation credit and the investment credit, limited to 65% of tax liability, before surcharge;
4. NASCAR Speedway, 100% of expenditures for infield renovation, grandstand, and infrastructure upgrades, not to exceed $1,580,000 per year for tax years 2011 through 2016. To be eligible for the credit in tax years 2011 and 2012, taxpayer must make at least $30,000,000 in capital expenditures before January 1, 2011. To be eligible for the credit in tax years 2013 to 2016, taxpayer must make an additional $32,000,000 in capital expenditures before January 1, 2016 (including a minimum of $10,000,000 between January 1, 2011, and December 31, 2012);
5. NASCAR Speedway, for tax year 2011, 100% of necessary expenditures incurred in Michigan, including professional fees, additional police officers, and traffic management devices, to ensure traffic and pedestrian safety while hosting motorsports events;

Michigan Economic Growth Authority

Public Act 24 of 1995 created the Michigan Economic Growth Authority (MEGA) tax credit to the Single Business Tax to promote economic growth and job creation within the state. The credit was retained under the Michigan Business Tax. The original act has been amended several times since to expand the size and types of businesses eligible to receive the tax credit. The credit amounts are approved by the MEGA board, which is an eight-member body, consisting of four state officials and four gubernatorial appointees. Today, the MEGA tax credit is a refundable credit applied against a firm’s Michigan Business Tax liability. The amount of the tax credit available to a business is based on the number of jobs created and/or retained, the type and location of the business, and whether the firm is expanding or locating in Michigan. The credit amount is based, in part, on the amount of personal income tax associated with new or retained jobs. (Note: The amounts for specific MEGA credits (e.g., polycrystalline silicon, photovoltaic energy) are based on other factors, such as energy consumption and capital investment.) The amount of each tax credit is included in an agreement between the MEGA board and the firm. There are five general types of agreements:

1) High-tech or high-wage, where business activity is concentrated in specific, defined sectors, and where the wage level meets certain criteria (high wage);

2) Rural, limited to businesses located in counties with a population of 90,000 or less;

3) Retention, where existing businesses agree to create a certain number of jobs or make a certain level of capital investment;

4) Standard, where a business agrees to create jobs in specific, defined sectors; and

5) Combination, consists of components of both a retention tax credit and a standard, rural, or high-tech tax credit.

Tax credits (certificates) are only awarded after fulfillment of the terms of an agreement. Once issued, tax certificates are provided with a firm’s Michigan Business Tax return and applied to its tax liability.
APPENDIX E  ESTATE TAX

LEGAL CITATION:  
M.C.L. 205.201 et seq.; 1899 PA 188.

YEAR ADOPTED:  
1899 (referred to as Inheritance Tax until amended by 1993 PA 54.)

BASIS OF TAX:  
Privilege of transferring an interest in the property of a decedent.

MEASURE OF TAX (BASE):  
Gross estate as determined under federal internal revenue code.

**Estate Tax Elimination**

Michigan’s Estate Tax is equal to the maximum allowable federal state death tax credit. In 2001, federal tax reforms phased out the allowable state death tax credit over a four-year period beginning in 2002. As a result, there is no state death tax credit for dates of death after December 31, 2004. The credit was set to be reinstated in 2013, but the elimination was made permanent by the American Taxpayer Relief Act of 2012. The State of Michigan has taken no action to offset the federal change and therefore the state Estate Tax is no longer effective. State Estate Tax revenues, which approached $200 million in FY2001, will not be collected by the state in the future unless the federal death tax credit is resumed or the state decouples its estate tax rate from the federal credit.

RATE:  
Tax imposed up to maximum allowable federal credit for state inheritance taxes paid.

ADMINISTRATION:  
Department of Treasury.

REPORT AND PAYMENT:  
Due by same date as federal estate tax.

DISPOSITION:  
General Fund.

**A Tax without a Purpose**

This act was originally drafted in 1985 to incentivize businesses in Benton Harbor to employ residents of that city. The act was altered in the early 1990s to capitalize on federal revitalization programs such as empowerment zones, rural enterprise communities, or enterprise communities. All zone designations under those program have since expired, so any businesses in the empowerment zone or enterprise communities designated in the 1990s are no longer eligible for an enterprise zone tax cut. If a federal program is implemented in line with the 1990s programs, the enterprise zone facilities tax breaks could become active again.
